CONTRIBUTORS

JESSICA WILLIAMS, CONSULTANT (SECOND EDITION)

Jessica Williams is a conservation ecologist based at Imperial College London. Her research focuses on understanding how biodiversity is responding to environmental changes and how this impacts nature's contributions to people. Beyond her research, she is actively involved in many outreach projects and works to highlight the diversity of people and varied career trajectories within science.

JULIA SCHROEDER, CONSULTANT (FIRST EDITION)

Julia Schroeder received her Ph.D. in Animal Ecology from the University of Groningen in the Netherlands. From 2012 to 2017, she headed a research group at the Max Planck Institute for Ornithology in Germany, studying social behavioral ecology. Julia currently researches and teaches evolutionary biology at Imperial College London.

CELIA COYNE

Celia Coyne is a freelance writer and editor living in Christchurch, New Zealand. She is the author of *Earth's Riches* and *The Power of Plants* and writes and edits articles on science and natural history for magazines, newspapers, journals, websites, and books in the UK, Australia, and New Zealand. Her aim is to make scientific subjects accessible to lay readers.
