

The graph shows deforestation in the Brazilian Amazon.

The x-axis shows years from 2005 to 2020, and the y-axis shows area deforested in million hectares.

In 2005, deforestation was just below 2.0 million hectares. By 2010, it had declined to below 1.5 million hectares, and in 2015 it dropped further to below 1.0 million hectares. However, by 2020, deforestation rose again, surpassing 1.5 million hectares.
