(a) 1 only (b) 2 only
(c) Both 1 and 2 (d) Neither 1 nor 2

Ans. (c) : Area of Chhattisgarh is 135,192 square km and Area of West Bengal is 88,572 sq km but the population density in Chhattisgarh is 154, whereas the population density in West Bengal is 904.

38. Which one of the following statements is not correct?
(a) There is no definition of the Scheduled Tribe in the Constitution of India
(b) North-East India accounts for a little over half of the country's tribal population.
(c) The people known as Todas live in the Nilgiri area.
(d) Lotha is a language spoken in Nagaland.

Ans. (b) : Largest population of Schedule Tribes in India resides in Madhya Pradesh. In addition to that, schedule tribes also live in Maharashtra, Jharkhand and Bihar. Highest population density of schedule tribes are found in North-eastern states of India. Rest of the statements is correct.

WORLD GEOGRAPHY

39. Itaipu Dam built on the River Parana is one of the largest dams in the world. Which one of the following two countries have this as a joint project?
(a) Brazil and Peru
(b) Paraguay and Ecuador
(c) Brazil and Paraguay
(d) Colombia and Paraguay

Ans. (c) : River Parana originates in the Brazilian Plateau and forms the boundary between Brazil and Paraguay and then between Paraguay and Argentina. It ultimately falls in the Atlantic Ocean at Rio de la Plata. Therefore it is a joint project of Brazil and Paraguay.

40. Consider the following statements:
1. Total land area of Earth is approximately 1475 lakh square kilometres.
2. Ratio of land area to water area of Earth is approximately 1 : 4.
3. Maximum percentage of Earth's water is in the Pacific Ocean.
Which of the statements given above is/are correct?
(a) 1 and 3 (b) 2 and 3
(c) 1 only (d) 3 only

Ans. (a) : Total land area is 148940000 km^2 square kilometers. The ratio of land area to water area of earth is approximately 1: 3.
The Pacific Ocean is the largest ocean, so maximum percentage of earth's water is present in it.

41. Which one of the following pairs is not correctly matched?

(a) Seikan Rail Tunnel	:	China
(b) Petronas Towers	:	Malaysia
(c) Appalachian Trail	:	United State of America
(d) Rogun Dam	:	Tajikistan

Ans. (a) : Seikan Rail Tunnel is world's longest tunnel with length of 34 miles, is located in Japan. Seikan railway tunnel is Japan's 53.85 km long tunnel beneath the Tsugaru Strait and connects the Aomori Prefecture on Honshu Island and the Hokkaido Island. With its track located 140m below the seabed, the Seikan tunnel is the world's deepest and longest railway tunnel.

42. Which one of the following is the correct sequence of the given Continents in the decreasing order of their percentage of Earth's land?
(a) North America – Africa – South America – Europe
(b) Africa – North America – South America – Europe
(c) North America – Africa – Europe – South America
(d) Africa – North America – Europe – South America

Ans. (b) : The correct sequence of the given Continents in the decreasing order of their percentage of Earth's land is Africa – North America – South America – Europe.

43. Match List I with List II and select the correct answer using the codes given below the lists:

List I (Country)	List II (Name of Parliament)
A. Netherlands	1. Diet
B. Ukraine	2. States General
C. Poland	3. Supreme Council
D. Japan	4. Sejm

	A	B	C	D
(a)	4	1	2	3
(b)	2	3	4	1
(c)	4	3	2	1
(d)	2	1	4	3

Ans. (b) :

Country	Name of Parliament
A. Netherlands	1. States General
B. Ukraine	2. Supreme Council
C. Poland	3. Sejm
D. Japan	4. Diet

44. Consider the following statements
1. A geostationary satellite is at an approximate height of 10,000 km.
2. FM transmission of music is of very good quality because the atmospheric or man-made noises which are generally frequent variations can do little harm.

Which of the statements given above is/are correct?
(a) 1 only (b) 2 only
(c) Both 1 and 2 (d) Neither 1 nor 2

Ans. (b) : Geostationary satellite need to stay constantly above one particular place on earth such as telecommunication satellite. This way, an antenna on earth can be fixed to always stay pointed towards that satellite without moving. In order to perfectly match earth's rotation, the speed of geostationary satellite should be about 3 km per second at an altitude of 35786 km. Hence statement 1 is not correct. FM transmission of music is of very good quality because the atmospheric or man-made noises which are generally frequent variations can do little harm.

45. Consider the following statements:
1. The axis of the earth's magnetic field is inclined at 23½° to the geographic axis of the earth.
2. The earth's magnetic pole in the northern hemisphere is located on a peninsula in northern Canada.
3. Earth's magnetic equator passes through Thumba is South India.
Which of the statements given above is/are correct?
(a) 1, 2 and 3 (b) 2 and 3
(c) 2 only (d) 3 only

Ans. (b) : The axis of earth is inclined to the plane of the ecliptic at an angle of 66 ½ degree, giving rise to different seasons and varying lengths of day and night.
Earth rotates on its own axis, tilted at an angle of $23\frac{1}{2}$ degrees, giving rise to Day and Night.
The North Magnetic Pole moves over time due to magnetic changes in Earth's core. In 2001, it was determined by the Geological Survey of Canada to lie west of Ellesmere Island in northern Canada at 81.3°N 110.8°W. It was situated at 83.1°N 117.8°W in 2005. The Thumba Equatorial Rocket Launching Station (TERLS) is an Indian spaceport operated by the Indian Space Research Organisation. It is located in Thumba, Thiruvananthapuram which is near the southern tip of mainland India, very close to earth's magnetic equator.

46. Which one of the following pairs is not correctly matched?

(a) Bahamas	:	Nassau
(b) Costa Rice	:	San Jose
(c) Nicaragua	:	Belmopan
(d) Dominican Republic	:	Santo Domingo

Ans. (c) : Managua is the capital of Nicaragua, not Belmopan. Balmopan is the capital city of Balize.

47. Which one of the following is the correct sequence of the given towns of Pakistan while moving from the North towards the South?
(a) Islamabad – Gujranwala – Peshawar - Multan
(b) Peshawar – Gujranwala – Multan – Islamabad
(c) Peshawar – Islamabad – Gujranwala – Multan
(d) Islamabad Multan – Peshawar – Gujranwala

Ans. (c) : The correct sequence of the given towns of Pakistan while moving from the North towards the South is Peshawar - Islamabad - Gujranwala - Multan.

48. Where are the Balearic Islands located:
(a) Mediterranean Sea (b) Black Sea
(c) Baltic Sea (d) North Sea

Ans. (a) : The Balearic Islands is a Spanish archipelago located in the Mediterranean Sea. It is an autonomous community of Spain. It has four major islands and several minor ones.

49. Which one of the following countries does not border Lithuania?
(a) Poland (b) Ukraine
(c) Belarus (d) Latvia

Ans. (b) : Ukraine does not border Lithuania. Belarus lies in the east of the Lithuania, Baltic ocean in west, Latvia in north and Poland in south.

50. Consider the following statements:
1. Great Britain comprises England, Wales, Scotland and Northern Ireland.
2. England covers less than 60% of the total area of the United Kingdom.
Which of the statements given above is/are correct?
(a) 1 only (b) 2 only
(c) Both 1 and 2 (d) Neither 1 nor 2

Ans. (c) : The total area of United Kingdom is 93, 628 sq miles (242,500 sq km), where England covers 50, 301 sq miles (130, 365 sq km) i.e. less than 60 % of total land area of United Kingdom. The United Kingdom (UK) is made up of England, Scotland, Wales and Northern Ireland.

51. Where is the volcanic mountain, Mount St. Helens located?
(a) Chile
(b) Japan
(c) Philippines
(d) United States of America

Ans. (d) : Volcanic mountain. St. Helen is located in United States of America.

Directions:
The following 7(Seven) items consist of two statements: one labelled as the 'Assertion (A)' and the other as 'Reason (R)'. You are to examine these two statements carefully and select the answers to these items using the code given below:
Codes:
(a) Both A and R are individually true and R is the correct explanation of A
