32. **Assertion (A) :** The eastern coast of India produces more rice than the western coast.

Reason (R) : The eastern coast receives more rainfall than the western coast.

(a) Both A and R are individually true and R is the correct explanation of A.

(b) Both A and R are individually true but R is NOT the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

Ans. (c) : Assertion is true, but reason is false. The western coast receives more rainfall than eastern coast, but the temperature between 20-27ºC, heavy clayed soil quality and rainfall is more suitable for rice cultivation.

33. **What is the correct sequence of the rivers-Godavari, Mahanadi, Narmada and Tapi in the descending order of their lengths?**

(a) Godavari - Mahanadi - Narmada - Tapi

(b) Godavari - Narmada - Mahanadi - Tapi

(c) Narmada - Godavari - Tapi - Mahanadi

(d) Narmada - Tapi - Godavari - Mahanadi

Ans. (b) : Narmada, Godavari, Tapi and Mahanadi are peninsular rivers.

Narmada and Tapi are west-flowing rivers.

Godavari and Mahanadi are east flowing rivers.

The sequence of these rivers in descending order as per their Length

1. Godavari - 1465 KM
2. Narmada - 1312 KM
3. Mahanadi - 851 KM
4. Tapi - 724 KM

34. **Nanda Devi peak forms a part of**

(a) Assam Himalayas

(b) Kumaon Himalayas

(c) Nepal Himalayas

(d) Punjab Himalayas

Ans. (b) : Nanda Devi peak forms a part of Kumaon Himalayas located in Chamoli district of Uttaranchal.

35. **Consider the following statements:**

1. India is the original home of the cotton plant.

2. India is the first country in the world to develop hybrid cotton variety leading to increased production.

Which of these statements is/are correct?

(a) Only 1 (b) Only 2

(c) Both 1 and 2 (d) Neither 1 nor 2

Ans. (c) : Both the statements are correct. India is the original home of the cotton plant and India is the first country in the world to develop hybrid cotton variety leading to increased production.

36. **Among the following cities, which one is at the highest altitude above mean sea level?**

(a) Bangalore (b) Delhi

(c) Jodhpur (d) Nagpur

Ans. (a) : Bangalore is at the highest altitude above mean sea level. Bangalore is the city which is 937 metres above sea level, Delhi is 218 metres above sea level, Jodhpur is 230 metres above sea level and Nagpur is 247.5 metres above the sea level.

37. **Consider the following statements:**

1. Longitude of Jabalpur's location is between those of Indore and Bhopal.

2. Latitude of Aurangabad's location is between those of Vadodara and Pune.

3. Bangalore is situated more southward than Chennai.

Which of these statements is/are correct?

(a) 1 and 3 (b) Only 2

(c) 2 and 3 (d) 1, 2 and 3

Ans. (c) : Jabalpur's longitude line (79.95 ° E) is not between Indore (76 ° E) and Bhopal (77.42 ° E), hence statement (1) is incorrect. The latitude of Aurangabad (19 ° 53 '47 "N) lies between the latitudes of Vadodara (22.30 ° N) and Pune (18 ° 31 ° N). Hence the statement (2) is correct. The latitude of Bangalore is 12.97 ° N and the latitudinal of Chennai is 13.04 ° N, so Bangalore is more south-facing city than Chennai, hence statement (3) is correct.

38. **Which one among the following States is smallest in area?**

(a) Andhra Pradesh (b) Gujarat

(c) Karnataka (d) Tamil Nadu

Ans. (d) : Tamil Nadu is the smallest state in area. In all, Tamil Nadu has 32 districts and out of them, Chennai - the capital of the state is the smallest district (by area). Chennai has an area of 426 square km and is one of the original 13 districts of Tamil Nadu. Despite being the smallest district, it is the most densely populated one.

39. **Among the following cities, which one is nearest to the Tropic of Cancer?**

(a) Delhi (b) Kolkata

(c) Jodhpur (d) Nagpur

Ans. (b) : Among the following cities, Kolkata is nearest to the Tropic of Cancer. Distance between Kolkata, India and the Tropic of Cancer is 97 km = 61 miles.

40. **Which one among the following States has the highest female literacy rate as per the Census 2001?**

(a) Chhattisgarh (b) Madhya Pradesh

(c) Orissa (d) Rajasthan

Ans. (a) : As per the census of 2001, Chhattisgarh has the highest female literacy of 51.85, Orissa has 50.51%.

WORLD GEOGRAPHY

41. **The waterfall 'Victoria' is associated with the river**

(a) Amazon (b) Missouri

(c) St. Lawrence (d) Zambeji

Ans. (d) : The waterfall 'Victoria' is associated with the river Zambeji. Victoria Falls, spectacular waterfall located about midway along the course of the Zambezi River, at the border between Zambia to the north and Zimbabwe to the south.

42. **Which among the following countries has the largest population?**

(a) Indonesia (b) Japan

(c) Pakistan (d) Sudan

Ans. (a) : Among the given options, Indonesia has the largest population.

43. **Assertion (A) : The amount of moisture in the atmosphere is related to latitude.**

Reason (R) : The capacity to hold moisture in the form of water vapour is related to temperature.

(a) Both A and R are individually true and R is the correct explanation of A.

(b) Both A and R are individually true but R is NOT the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

Ans. (a) : The wide spread of air around the earth is called the atmosphere. N_2, O_2, CO_2, etc. as well as water vapor are found in the atmosphere. Due to the extreme temperature and extreme precipitation at the equator, the amount of water vapor in the atmosphere is also very high, while the amount of water vapor decreases gradually from the equator to the polar regions.

44. **Assertion (A) : Unlike temperate forests, the tropical rain forests, if cleared, can yield productive farmland that can support intensive agriculture for several years even without chemical fertilizers.**

Reason (R) : The primary productivity of the tropical rain forest is very high when compared to that of temperate forests.

(a) Both A and R are individually true and R is the correct explanation of A.

(b) Both A and R are individually true but R is NOT the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

Ans. (d) : A is false and R is true because in tropical rainforest areas, heavy rainfall occurs throughout the year and there is a lot of leaching of minerals. These areas also have high temperature and bacterial activity is enormous which leads to decrease in humus content. Thus the fertility of soil is reduced and no intensive cultivation is possible without application of chemical fertilizers. But due to these geographical conditions, primary productivity of the tropical rain forest is very high when compared to that of temperate forests.

45. **Assertion (A) : Areas lying within five to eight degrees latitude on either side of the equator receive rainfall throughout the year.**

Reason (R) : High temperatures and high humidity cause convectional rain to fall mostly in the afternoons near the equator.

(a) Both A and R are individually true and R is the correct explanation of A.

(b) Both A and R are individually true but R is NOT the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

Ans. (a) : Areas lying within 5-8 degree latitude on either side of equator receive conventional rainfall due to high temperature and high humidity throughout the year. High temperatures and high humidity causes convectional rain to fall mostly in the afternoons near the equator.

So, the correct option is 'Both A and R are true but R is the correct explanation of A'.

46. **Consider the following statements:**

1. In Macedonia, ethnic Albanians are a minority.

2. In Kosovo, Serbians are a majority.

Which of these statements is/are correct?

(a) Only 1 (b) Only 2

(c) Both 1 and 2 (d) Neither 1 nor 2

Ans. (b) : In Macedonia, ethnic Albanian population is 23%, which is a good number in Macedonia. But in Kosovo 92% Albanians are present where Serbians are the minority.

47. **Israel has common borders with**

(a) Lebanon, Syria, Jordan and Egypt.

(b) Lebanon, Syria, Turkey and Jordan.

(c) Cyprus. Turkey, Jordan and Egypt.

(d) Turkey, Syria, Iraq and Yemen.

Ans. (a) : Israel is located in the Middle East along the eastern end of the Mediterranean Sea. It is bound by the Mediterranean Sea to the west, Lebanon to the north, Syria to the northeast, Jordan to the east and Egypt to the southwest. The country is divided into three topographical regions.
