According to condition right Angle. A right Angle can be in any orientation or rotation as long as internal angle is 90º. So correct statement the path followed by the cyclist in a circle.

136. Life expectancy is highest in the world in

(a) Canada (b) Germany
(c) Japan (d) Norway

Ans. (c) : Life expectancy in Canada is 79.7 years, Germany - 77.8 years, Japan - 80.9, Norway - 78.9 years. Hence Japan has the highest life expectancy in the world.

137. Three flags, each of different colour, are available for a military exercise. Using these flag, different codes can be generated by waving

(i) Single flag of different colours

(ii) any two flags in a different sequence of colours

(iii) three flags in a different sequence of colours.

The maximum number of codes that can be generated is

(a) 6 (b) 9
(c) 15 (d) 18

Ans. (c) : (i) Number of ways of arranging 3 colours taking-

$$1 \text{ at a time } {}^{3}p_1 = \frac{3\times 2!}{2!} = 3$$

(ii) Number of ways of arranging three colours taking-

$$2 \text{ at a time } {}^{3}p_1 = \frac{3!}{1!} = 6$$

(ii) Number of ways of arranging 3 colours taking-

$$3 \text{ at a time } {}^{3}p_3 = 6$$

$\therefore$ Maximum no. of codes = 3 + 6 + 6 = 15 Ans

138. Which one of the following statements is NOT correct?

(a) The Press Council of India is an autonomous quasi-judicial body established under an Act of Parliament.

(b) The Press Information Bureau provides accreditation to media person so as to have easy access to information form government sources.

(c) Among all the states of India Maharashtra publishes the largest number of newspapers.

(d) Press Trust of India is the largest news agency in the country.

Ans. (c) : India's largest news agency PTI is a non-profit co-operative society of Indian newspapers, whose responsibility is to provide efficient and unbiased news to its customers. It was established on 27 August, 1947 and started its services from 1949 AD. It is offering its services in both English and Hindi. 'Bhasha' is the Hindi news service of the agency. Uttar Pradesh has the highest number of newspapers published in all states of India.

139. A car travels the first one-third of a certain distance with a speed of 10km/hr, the next one-third distance with a speed of 20 km/hr and the last one-third distance with a speed of 60 km/hr. The average speed of the car for the whole journey is :

(a) 18 km/hr (b) 24 km/hr
(c) 30 km/hr (d) 36 km/hr

Ans. (a) : Let the total distance be x km

Time = distance/speed

$$= \frac{1}{10}\times\frac{1}{3}x + \frac{1}{20}\times\frac{1}{3}x + \frac{1}{60}\times\frac{1}{3}x$$

$$= \frac{x}{18}$$

Now

$$\text{Average speed} = \frac{x}{x/18}$$

= 18 km/hr

140. 'A' walks around a circular field at the rate of one round per hour while 'B' runs around it at the rate of six rounds per hour. They start in the same direction from the same point at 7.30 a.m. They shall first cross each other at

(a) 8.30 a.m. (b) 8.10 a.m.
(c) 7.48 a.m. (d) 7.42 a.m.

Ans. (d) :
Since, A and B move in the same direction along the circle, so they will first meet, each other when there is a difference of one round between the two.
Relative speed of A and B = (6−1) =5 rounds per hour.
Time taken to complete one round at this speed =1/5 hr=12min. 7.30 + 12 min = 7.42 am.
Hence, they shall first cross each other at 7.42 am.

141. Which one of the following statements is correct?

(a) East Timor was a British colony for four centuries.
(b) The European colonial rulers handed over East Timor to Indonesia in 1975.
(c) The United Nations took over East Timor in 1999 to prepare it for independence.
(d) East Timor finally declared its independence in December 2001.

Ans. (c) : East Timor got independence on 20th May, 2002. The people of East Timor suffered some of the worst atrocities of modern times in their struggle for self determination. When their Portuguese colonial masters withdrew in 1975, Indonesia claimed the territory for itself and ruthlessly suppressed the independence movement. Eventually the UN took over the administration in 1999 and supervised the territory's transition to independence.

142. With reference to Indian defence, which one of the following statement is NOT correct?

(a) With the induction of Prithvi-II, the IAF is the only air force in the world with surface-to-surface ballistic missiles under its command.
(b) Sukhoi-30 MKI jet fighters can launch air-to-air and air-to-surface precision missiles.
(c) Trishul is a supersonic surface-to-air missile with a range of 30 km.
(d) The indigenously built INS Prabal can launch surface-to-surface missiles.

Ans. (c) Trishul is a supersonic surface-to-air missile with a range of 9 km with payload of 5.5 Kg.

143. Four different candles, which can last for 5 hours, 4 hours, 3 hours and 2 hours of burning, respectively, are lit in a room at the same instant and allowed to burn till such time that the three candles in the room get extinguished. The cost of burning each one of these candles is 75 paise per hour. The cost involved is:

(a) Rs. 2.75 (b) Rs. 3.75
(c) Rs. 9.75 (d) Rs. 12.50

Ans. (c) : Total hours lit candles until three candles are extinguished = 2 + 3 + 4 + 4 = 13 hours
So the cost of burning = 13 × .75
= 9.75 rupees

144. Which one of the following statements is correct?

(a) Alliance Air is a wholly-owned subsidiary of Indian Airlines.
(b) The Airports Authority of India manages seven of the country's international airports.
(c) The Airports Authority of India is the regulatory organisation for enforcing civil air regulations in India.
(d) It is the function of Directorate General of Civil Aviation to plan and construct runways and terminal buildings and to provide air safety services.

Ans. (a) : Alliance Air is a wholly owned subsidiary of Indian Airlines. Rest of the given statements is not correct.

145. A two member committee comprising of one male and one female member is to be constituted out of five males and three females. Amongst the females, Ms. A refused to be a member of the committee in which Mr. .....taken as the member. In how many different ways can the committee b constituted?

(a) 11 (b) 12
(c) 13 (d) 14

Ans. (d) ${}^{5}C_1 \times {}^{3}C_1 - 1$
= 15 – 1
= 14

146. In which one of the following countries Rupees is currency:

(a) Bhutan (b) Malaysia
(c) Maldives (d) Seychelles

Ans. (d) : The rupee is the currency of Seyhelles. It is locally called roupi, it is subdivided into 100 cents. Currency of Bhutan is Ngultrum, Currency of Malaysia is Malaysian Ringgit and Currency of Maldives is Maldives Rufiyaa.

147. Three bells toll at intervals of 9, 12 and 15 minutes respectively. All the three begin to toll at 8 a.m. At what time will they first toll together again?

(a) 8.45 a.m. (b) 10.30 a.m.
(c) 11.00 (d) 1.30 p.m.

Ans. (c) : Bells will toll together again at a time, which is obtained by taking L.C.M. of their individual tolling intervals. L.C.M. of 9, 12 and 15 = 180 min. They will toll together again after 180 min, i.e. 3 hours. Time = 8 + 3 = 11 a.m.

148. Which one among the following languages has largest number of speakers in the world?

(a) Bengali (b) French
(c) Japanese (d) Portuguese

Ans. (a) : Among the given options, Bengali has largest number of speakers in the world.

149. Which among the following countries was the earliest to give women the right to vote?

(a) Iceland (b) India
(c) New Zealand (d) U.S.A.

Ans. (c) : New Zealand gave the right to vote to women in 1893.

150. Total time taken by a person in going to a place by walking and returning on cycle is 5 hours 45 minutes. He would have gained 2 hours by cycling both ways. The time taken by him to walk both ways is

(a) 6 hrs. 45 minutes (b) 7 hrs. 45 minutes
(c) 8 hrs. 15 minutes (d) 8 hrs. 30 minutes

Ans. (b) : Given that time taken for riding both ways will be 2 hours lesser than the time needed for waking one way and riding back
From this, we can understand that
time needed for riding one way = time needed for waking one way - 2 hours
Given that time taken in walking one way and riding back = 5 hours 45 min
Hence, The time he would take to walk both ways = 5 hours 45 min + 2 hours = 7 hours 45 min
