	A	B	C	D
(a)	1	4	2	3
(b)	1	4	3	2
(c)	4	1	2	3
(d)	4	1	3	2

Ans. (d) : Atlas cycle company limited is situated in Sonepat, Bharat Earth Movers Ltd is located in Bengaluru, Indian Farmers Fertilizers Cooperative Ltd is located in Kalol, National Aluminium Company Ltd is located in Bhubaneswar.

34. Match the locations of ports labelled as A, B, C and D in the given map with the names of those ports and select the correct answer using the codes given below the names of the ports:

Name of Ports

1. Kakinada
2. Karwar
3. Mangalore
4. Tuticorin
5. Veraval

	A	B	C	D
(a)	4	2	3	5
(b)	5	2	4	1
(c)	1	3	4	2
(d)	5	3	2	1

Ans. (b) : In the given map A marked port is Veraval of Gujarat, B marked port is Karwar of Karnataka, C marked port is Tuticorin of Tamil Nadu and D marked port is Kakinada of Andhra Pradesh.

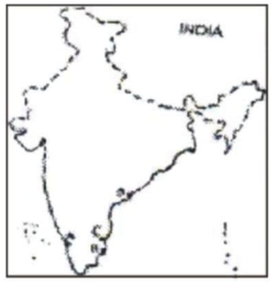

35. Which one of the following ports of India handles the highest tonnage of import cargo?

(a) Calcutta (b) Kandla
(c) Mumbai (d) Visakhapatnam

Ans. (d) : Vishakhapatnam is the port of India which handles the highest tonnage of import cargo. It is on the eastern coast of Andhra Pradesh. In 2009 – 10 the shipping ministry planned Vishakhapatnam port to handle 70 million tonnes of cargo.

Ans. (b) : Presently, Kandla port handle the highest tonnage of Import cargo.

36. Match the different ports of Union Territory of Pondicherry labelled as A, B, C and D in the given map with their respective names and select the correct answer using the codes given below the lists of ports:

List (Ports of Pondicherry)

1. Karaikal
2. Mahe
2. Pondicherry
4. Yanam

	A	B	C	D
(a)	2	1	3	4
(b)	1	2	3	4
(c)	2	1	4	3
(d)	1	2	4	3

Ans. (a) :
A – Mahe
B – Karaikal
C – Podicherry
D – Yanam

37. Which one of the following pairs of primitive tribes and places of their inhabitation is NOT correctly matched?

(a) Buksa : Pauri-Garhwal
(b) Kol : Jabalpur
(c) Munda : Chhotanagpur
(d) Korba : Kodagu

Ans. (d) : Korba tribe is found in chhotanagpur of Chhattisgarh and Jharkhand, whereas Kodagu is a district in Karnataka.

38. Assertion A : The frequency of floods in North Indian plains has increased during the last couple of decades.

Reason R : There has been reduction in the depth of river valleys due to deposition of silt.

(a) Both A and R are individually true and R is the correct explanation of A
(b) Both A and R are individually true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

Ans. (a) : Both assertion and reasons are individually true and R is the correct explanation of A. The deposition of silt on the river bottom is because of many reasons including the pollution which make the river shallower than before, promoting easy flooding of the nearby areas.

39. Assertion A : Ganga Plain is the most densely populated part of India.

Reason R : Ganga is the most harnessed river of India.

(a) Both A and R are individually true and R is the correct explanation of A
(b) Both A and R are individually true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

Ans. (b) : The Ganga plain is most important plain of India. The gangetic plain covers more than a fourth of the country's total surface. The alluvial fertile soil is very suitable for cultivation of different cereals, pulses and nuts. So bulk of the population resides in this plain area. Due to population burst across the Ganga, it is most harnessed river of the country.

40. Consider the following statements:

1. **Tides are of great help in navigation and fishing.**
2. **High tide enables big ships to enter or leave the harbour safely.**
3. **Tide prevents siltation in the harbours.**
4. **Kandla and Diamond harbour are tidal ports.**

Which of these statements are correct?

(a) 1 and 4 (b) 2, 3 and 4
(c) 1, 2 and 3 (d) 1, 2, 3 and 4

Ans. (d) : Tidal ebb is an important phenomenon in the oceans that has a direct and indirect impact on humans and the environment. Hence all the statements in question are correct.

The periodical rise and fall of the sea level, once or twice a day, mainly due to the attraction of the sun and the moon is called a tide. Since tides are caused by the earth-moon-sun positions, which are known accurately, the tides can be predicted well in advance. This helps the navigators and fishermen plan their activities. Tidal flows are of great importance in navigation. Tidal heights are very important, especially harbours near rivers and within estuaries having shallow 'bars' at the entrance, which prevent ships and boats from entering into the harbour. Tides are also helpful in desilting the sediments and in removing polluted water from river estuaries. Tides are also used to generate electrical power. Kandala port in Gujarat and Diamond Harbour port in Kolkata are the tidal sea ports in India. Hence all the given statements are correct.

41. Match List I with List II and select the correct answer using the codes given below the lists:

List I (Institute)	List II (Location)
A. Central Institute of Higher Tibetan Studies	1. Hyderabad
B. Indira Gandhi Institute of Development Research	2. Mumbai
C. National Institute of Mental Health and Neuro-sciences	3. Bangalore
D. Central Institute of English & Foreign Languages	4. Dharmshala
	5. Varanasi

	A	B	C	D
(a)	5	3	4	1
(b)	5	2	3	1
(c)	3	2	4	5
(d)	4	5	1	2

Ans. (b) : Central institute of Higher Tibetan studies is located at Varanasi, Uttar Pradesh since the year 1967.

- Indira Gandhi Institute of Development Research is located in Mumbai, Maharashtra.
- National Institute of Mental Health and Neurosciences is located in Bengaluru, Karnataka.
- Central institute of English and foreign languages is located in Hyderabad, Andhra Pradesh.

WORLD GEOGRAPHY

42. Match List I with List II and select the correct answer using the code given below the lists:

List-I (Minerals)	List-II (Major Producer)
A. Mineral Oil	1. Zambia
B. Copper	2. Guyana
C. Manganese	3. Venezuela
D. Bauxite	4. Gabon

	A	B	C	D
(a)	3	1	4	2
(b)	3	1	2	4
(c)	1	3	2	4
(d)	1	3	4	2

Ans. (a) : The major producer of mineral oils is Venezuela, major producer of copper is Zambia, major producer of Manganese is Gabon and major producer of Bauxite is Guyana.
