(c) Streptomycin
(d) Rifampicin

Ans. (b) : P-amino salicylic acid is an antimicrobial drugs is suitable for treatment of both tubereculosis and leprosy.
It is antituberculosis antibiotic and works by stopping or slowing the growth of bacterial infections.

107. Most of the desert plants bloom during night time because:
(a) Their blooming is controlled by low temperature.
(b) They are sensitive to the phases of moon.
(c) The desert insects eat away flowers during day time.
(d) The desert insects are active during night time.

Ans. (d) : Most of the deserts plants bloom during the night time because desert insects are active in the night.

108. Which of the following elements are present in all proteins?
I. Carbon **II. Hydrogen**
III. Oxygen **IV. Nitrogen**
Select the correct answer from the codes given below:
Codes:
(a) II and III
(b) I, II and IV
(c) I, III and IV
(d) I, II, III and IV

Ans. (d) : Proteins were first described by Gerardus Johannes Mulder and named by Jons Jacob Berzelius in1838.
Proteins contain the element carbon, hydrogen and oxygen, but proteins are the only macronutrient that contains nitrogens. So option (d) is correct, as it includes all of the above mentioned elements.

109. Which one of the following hormones contains iodine?
(a) Thyroxine (b) Testosterone
(c) Insulin (d) Adrenaline

Ans. (a) : Thyroxine is a hormone secreted by the thyroid gland in the bloodstream. It then travels to the organs such as kidneys and liver where it gets converted into its active form triiodothyronine.
The thyroid gland uses iodine from food to make thyroid hormones thyroxine and triiodothyronine.

110. "It begins as a single cell and grows into a merciless disease that claims millions of lives year after year. But scientists are steadily unlocking its mysteries, and the fight against it may now have reached a dramatic turning point. New discoveries promise better therapies and hope in the war against ..." The disease referred to in the above quotation is:
(a) Cancer (b) AIDS
(c) Tuberculosis (d) Alzheimer's disease

Ans. (a) : Cancer is deadly diseases which occurs due to uncontrolled division and growth of cells. This fatal disease can occur in all those organs whose cells have the ability to divide. The most common treatments of the cancer are surgery, chemotherapy and radiation.

ENVIRONMENT AND ECOLOGY

111. "Monoculture of commercially viable trees is destroying the unique natural profile of .....Thoughtless exploitation of timber, deforesting vast tracts for palm cultivation, destruction of mangroves, illegal logging by tribals and poaching only compound the problem. Fresh water pockets are fast drying up due to deforestation and destruction of mangroves." The place referred to in this quotation is:
(a) Sunderbans
(b) Kerala Coast
(c) Orissa Coast
(d) Andaman and Nicobar Islands

Ans. (a) : Sundarbans contains the world's largest mangrove forest. It is a vast contiguous mangrove forest ecosystem in the coastal region of Bay of Bengal spread over India and Bangladesh and Meghna rivers.
The quotation mentioned above refers to Sundarban.
Mangroves are the plant communities occurring in intertidal zones along the coasts of tropical and subtropical countries.
They perform many ecological functions such as production of woody trees, provision of habitat, food and spawning grounds for fin fish and shell fish, provision of habitat for birds and other valuable fauna; protection of coastlines and acceration of sediment to form new land.

112. Which one of the following does not belong to biosphere reserves set-up so far?
(a) Great Nicobar (b) Sunderbans
(c) Nanda Devi (d) Gulf of Kutch

Ans. (d) : At the time, when question was asked Gulf of Kutch was not a biosphere reserve, but as per 2021 it is a biosphere reserve with the largest area covered.
Biosphere Reserve is an international designation by United Nations Educational Scientific and cultural Organization for representative parts of natural and cultural landscapes extending over large areas of terrestrial or coastal/marine ecosystem.

113. Which one of the following fuels causes minimum environmental pollution?
(a) Diesel (b) Coal
(c) Hydrogen (d) Kerosene

Ans. (c) : Hydrogen fuel does not emit any pollution and it is the most powerful fuel with high calorific and valve.
Diesel, Coal, Kerosene fuel are obtained from fossils fuel and they emit pollution on combustion.

CURRENT AFFAIRS

114. The lead character in the film The Bandit Queen has been played by:
(a) Pratibha Sinha (b) Rupa Ganguly
(c) Seema Biswas (d) Shabana Azmi

Ans. (c) : The lead character in the film ''The Bandit Queen'' directed by Shekhar Kapoor was played by Seema Biswas. The story of 'The Bandit Queen' was based on the life of Phoolan Devi. Seema Biswas was awarded national award for her role in 'The Bandit Queen.'

115. In the field of space technology, India has demonstrated during 1994, her capability to:
(a) Design advance intercontinental ballistic missile warning systems
(b) Build satellites
(c) Build stealth missiles
(d) Launch geo-stationary satellites

Ans. (d) : The stretched Rohini satellite series (SROSS) was launched from Sriharikota on May 4, 1994 A.D. into the lower orbit of Earth. After this, on Oct 15, 1994 India launched PSLV from Sriharikota and was placed into polar solar orbit. With this India has demonstrated during 1994, her capability to launch geo-stationary satellites from the country itself.

116. Which one of the following countries had in 1994 voted against joining the European Union?
(a) Norway (b) Sweden
(c) Finland (d) Austria

Ans. (a) : Norway had voted against joining the European Union.
The European Union is a political and economic union of 27 member states that are located primarily in Europe. The European union was established on 1st November, 1993 in Maastricht, Netherlands.
As of 31st January, 2020 the U.K. formally left the European Union.

MISCELLANEOUS

117. The signatories to the treaty banning chemical weapons include:
(a) USA, Russia, India, Iran and Israel
(b) Iraq, Libya, India, Russia and China
(c) Brazil, Angola, North Korea, Pakistan and USA
(d) Syria, Sri Lanka, Japan, Singapore and France

Ans. (a) : The treaty on ban on chemical weapon became effective worldwide on 25th April, 1997. 160 countries including U.S.A., Russia, Iran, Israel and India had signed the treaty.
As of 30th April 1997, 87 countries had signed the treaty and also ratified it in December, 1996.

118. A meteor is
(a) a rapidly moving star
(b) a piece of matter which has entered the earth's atmosphere from outer space
(c) part of a constellation
(d) a comet without a tail

Ans. (b): A meteor is a small body of matter from outer space that enters the Earth's atmosphere and becomes incandescent as a result of friction and appear as a streak of light.

119. According to the 1991 Census, the highest percentage of population in India is to be found in the age-group of
(a) 60 years and above
(b) 35 to 55 years
(c) 25 to 34 years
(d) 5 to 14 years

Ans. (d) : According to the 1991 census, the percentage of population in the age group between 5 and 14 years was maximum in India. The geographical area of India is about 2.4% of the world, but 16% of the world's population is found here. The population as per 1991 census was 838, 583, 988.

120. The Nobel Prize for deciphering the language of bees was awarded to:
(a) H.G. Khurana (b) K.V. Frisch
(c) Julian Huxley (d) Dorothy Hodgkins

Ans. (b) : The nobel prize for deciphering the language of bees in 1973 was given to K.V. Frisch.

121. Which one of the following is true regarding the Jawahar Rozgar Yojana (JRY)?
(a) It was launched during the Prime Ministership of Indira Gandhi.
(b) It aims at creating one million jobs annually.
(c) The target group of JRY are the urban poor living below the poverty line.
(d) Under the scheme 30% of the employment generated is reserved for women.

Ans. (d) : Jawahar Rozgar Yojana (JRY) was started on 1st April, 1989 with the aim to provide employment opportunities to people.
Jawahar Rozgar Yojana was combination of National Rural Employment Program (NREP) and Rural Landless Employment Guarantee Program (RLEGP).
