It is centrally sponsored scheme and run by state governments.
The Expenditure is shared by the centre and the state in the ratio 80 : 20.
There is provision of reservation of 30% employment generated to women.
Thus option (d) is correct.

122. Which of the following are correctly matched?
I. Hamas-Palestinian extremist group
II. Sinn Fein-IRA's political wing
III. True Path Party-A major constituent of the ruling coalition in Turkey
Choose the correct answer from the codes given below:
Codes:
(a) I and II (b) I and III
(c) I, II and III (d) II and III

Ans. (c) : The given statements are correctly matched as:

Hamas	–	Palestinian extremist group
Sinn Fein	–	IRA's political wing
True Path Party	–	A major constituent of the ruling coalition in Turkey.

123. Which of the following benefits are likely to accrue to India from the World Trade Organisation?
I. India's share in the world trade is to go up from the present 600 million US dollars to 5 billion US dollars by 2000 A.D.
II. It will help boost exports of agricultural commodities from India.
III. India's share in the world trade is likely to triple by the year 2000 A.D.
Select the correct answer using the codes given below:
Codes:
(a) I, II and III (b) I and II
(c) I and III (d) II and III

Ans. (d) : The benefits which are likely to accrue to India from the World Trade Organisation is it will help boost exports of agricultural commodities from India and India's share in the world trade in likely to triple by the year 2000 A.D.

124. Comet Shoemaker-Levy 9 hit the planet:
(a) Pluto (b) Mars
(c) Jupiter (d) Saturn

Ans. (c) : Comet Shoemaker – Levy 9 was a comet that broke apart in July 1992 and collided with Jupiter in July 1994, which was the first direct observation of an extra terrestrial collision of solar system objects. After colloiding, it created a huge dark scars in the planet atmosphere and lofting superheated plumes into its stratosphere.

125. Examine the following statements:
I. All children are inquisitive.
II. Some children are inquisitive.
III. No children are inquisitive.
IV. Some children are not inquisitive.
Among these statements, the two statements which cannot both be true simultaneously but can both be false would be:
(a) I and III (b) I and IV
(c) II and III (d) III and IV

Ans. (a) : From the given statement, the two statement which cannot be true simultaneously but can both be false would be.
All children are inquisitive and no children are inquisitive.
So, I and II are correct.

126. Which one of the following is the largest mutual fund organisation in India?
(a) SBI Mutual Fund
(b) GIC Mutual Fund
(c) Industrial Bank Mutual Fund
(d) Unit Trust of India

Ans. (d) : In 1963, the Unit Trust of India (UTI) was established by an act of parliament. It was set up by the Reserve Bank of India and is functional under the regulatory and administrative control of it.
In 1964, UTI launched its first mutual fund scheme. Its headquarter is in Mumbai and have 41 regional offices throughout the country.

127. The only snake that builds a nest is:
(a) Chain viper (b) King Cobra
(c) Krait (d) Saw-scaled viper

Ans. (b): The female snake about 13 feet only build nest to lay its eggs before the monsoon. The king cobra is the only snake in the world that builds a nest.

128. "By weaving threads of physics, chemistry and biology into a rich tapestry, this remarkable scientist provided a unifying molecular view of the world... He touted the wonderful properties of Vitamin C first as a cure of common cold and later as a preventive agent against cancer." One of science's major figures of all time referred to above is:
(a) G.N. Lewis
(b) Linus Carl Pauling
(c) Fritz London
(d) Walter Heitler

Ans. (b) : In 1970 Linus Pauling claimed that vitamin C prevents and alleviates the episodes of the common cold.
Pauling the only person to ever win two unshared Nobel Prizes. Also in 1949, Pauling with his team established sickle cell Anemia as a genetic disease. In 1954 and

1962 he received noble prize for chemistry and nobel prize for peace.

129. 'The final Agent Orange raid in Vietnam took place in 1970; areas have begun to bloom again. But 19 years after the war's end, it seems plain that Agent Orange is killing and maiming human beings, something it never intended to do. The apparent toxic fallout from those clouds ... is a crop of human miseries including cancers, miscarriages and birth defects—that may persist for decades."
The offensive substance referred to in the above quotation is:
(a) DDT used as insecticide
(b) A complex mixture of herbicides and weedicides used to increase agricultural output in the then South Vietnam under the US aid programme
(c) A complex mixture of DDT and other insecticides used as aerial sprays for protection against malaria and other tropical diseases
(d) Dioxin used as defoliants

Ans. (d) : In the Vietnam war, the US used a mixture of weed killer chemicals called 2, 4, 5, 7 and 2, 4-D (which was contaminated with 2, 3, 7, 8 tetra chlorodibenzodioxin) as a chemical weapon under the name 'Agent Orange'. Agent orange is named because of orange colour of chemical.

130. 'Yellow cake', an item of smuggling across borders is:
(a) A crude form of heroin
(b) A crude form of cocaine
(c) Uranium oxide
(d) Unrefined gold

Ans. (c) : Uranium oxide in Canadian local language is termed as 'Yellow Cake'.
Yellow cake uranium is a type of uranium concentrate powder obtained from leach solution.

131. Consider the series given below:
4/12/95, 1/1/96, 29/1/96, 26/2/96,...
The next term of the series is:
(a) 24/3/96 (b) 25/3/96
(c) 26/3/96 (d) 27/3/96

Ans. (b) : 4/12/95, 1/1/96, 29/1/96, 26/2/96, from sequence it is clear that there is a gap of 28 days between two dates, so next date in sequence will be 25/3/96.

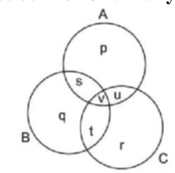

132. In track meets both 100 yards and 100 metres are used as distances. By how many metres is 100 metres longer than 100 yards?
(a) 0.856 m (b) 8.56 m
(c) 0.0856 m (d) 1.0 m

Ans. (b) : 1 yards = 36 inches
1 inch = 2.54 cm
100 yards = 2.54 × 36 × 100
= 91.44 × 100 cm
= 91.44 m
Difference between 100 metre and 100 yards is
100 – 91.44
= 8.56 m

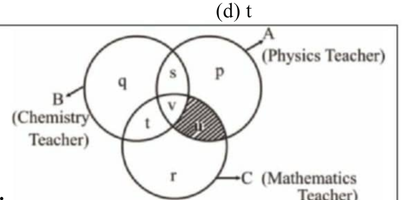

133. Examine the following statements:
I watch TV only if I am bored.
I am never bored when I have my brother's company.
Whenever I go to the theatre, I take my brother along.
Which one of the following conclusions is valid in the context of the above statements?
(a) If I am bored, I watch TV
(b) If I am bored, I seek my brother's company
(c) If I am not with my brother, then I watch TV
(d) If I am not bored, I do not watch TV

Ans. (d) : As per the statements, the conclusion which is valid in the context of statement is if I am not bored, I do not watch T.V. This is clear from first line of statement which states that I watch TV only if I am bored. So, if he is not bored, he will not watch T.V.

134. In the given diagram, circle A represents teachers who can teach Physics, circle B represents teachers who can teach Chemistry and circle C represents those who can teach Mathematics. Among the regions marked p, q, r ..... the one which represents teachers who can teach Physics and Mathematics but not Chemistry, is:

(a) v (b) u
(c) s (d) t

Ans. (b) :
From the given Venn diagram its clear that the shade portion 'u' represents teacher who can teach mathematics and physics but not chemistry.

135. Seven men, A, B, C, D, E, F and G are standing in a queue in that order. Each one is wearing a cap of a different colour like violet, indigo, blue, green, yellow, orange and red. D is able to see in front of him green and blue but not violet. E can see violet
