15. The passage mentions that ''this world is evidently not meant for them''. It refers to people who :

1. Seek freedom from foreign domination.
2. Live in starvation and misery.
3. Become revolutionaries.

Which of the statements given above is/are correct?

(a) 1 and 2 (b) 2 only
(c) 2 and 3 (d) 3 only

Ans. (b) According to the passage, this world is evidently not mean for them who lives in starvation and misery as spiritual or any other greatness cannot be founded on lack of freedom and opportunity or on starvation and misery.

16. Consider the following assumptions :

1. A country under foreign domination cannot indulge in spiritual pursuit.
2. Poverty is an impediment in the spiritual pursuit.
3. Subject peoples may become other-worldly.

With reference to the passage, which of the above assumptions is/are valid?

(a) 1 and 2 (b) 2 only
(c) 2 and 3 (d) 3 only

Ans. (c) According to the passage, a country under foreign domination seeks escape from the present in dreams of vanished age and finds consolation in visions of past greatness. Thus, statement-1 is wrong. There is also mentioned in paragraph that spiritual or any other greatness cannot be found on lack of freedom or opportunity or on starvation and misery, Thus, statement 2 is true. According to some western writers have encouraged notion that Indian's are other worldly. Thus, statement 3 is true.

17. The passage thematically centres on :

(a) the state of mind of oppressed people.
(b) starvation and misery.
(c) the growth of civilization.
(d) body, mind and spirit of people in general.

Ans. (a) The theme of passage is centrally based on the state of mind of oppressed people. The poor and unfortunate in every country became to some extent other worldly, unless they became revolutionaries, for this world is evidently not means for them. So also subject peoples.

18. According to the passage, the torture of the mind and spirit is caused

(a) by the impact of foreign domination.
(b) by the desire to escape from foreign domination and find consolation in visions of past greatness.
(c) due to lack of equilibrium between an external life and an internal life
(d) due to one's inability to be either revolutionary or other-worldly

Ans. (c) Every civilization and every people exit these parallel streams of an external life and internal life. Where they meet or keep close to each other, there is an equilibrium and safety and when they diverge conflict arises and the crisis that torture the mind and sprit. Thus, statement C is correct.

Directions for the following 4 (four) items :

Read the following passage and answer the items that follow. Your answers to these items should be based on the passage only.

Passage

A species that exerts an influence out of proportion to its abundance in an ecosystems is called a keystone species. The keystone species may influence both the species richness of communities and the flow of energy and materials through ecosystems. The Sea star *Pisaster ochraceus,* which lives in rocky intertidal ecosystems on the Pacific coast of North America, is also an example of a keystone species. Its preferred prey is the mussel *Mytilus californianus*. In the absence of sea stars, these mussels crowd out other competitors in a broad belt of the intertidal zone. By consuming mussels, sea star creates bare spaces that are taken over by a variety of other species.

A study at the University of Washington demonstrated the influence of *Pisaster* on species richness by removing sea stars from selected parts of the intertidal zone repeatedly over a period of five years. Two major changes occurred in the areas from which sea stars were removed. First, the lower edge of the mussel bed extended farther down into the intertidal zone, showing that sea stars are able to eliminate mussels completely where they are covered with water most of the time. Second, and more dramatically, 28 species of animals and algae disappeared from the sea star removal zone. Eventually only *Mytilus,* the dominant competitor, occupied the entire substratum.

Through its effect on competitive relationships, predation by *Pisaster* largely determines which species live in these rocky intertidal ecosystems.

19. What is the crux of the passage ?

(a) Sea star has a preferred prey.
(b) A preferred prey determines the survival of a keystone species.
(c) Keystone species ensures species diversity.
(d) Sea star is the only keystone species on the Pacific coast of North America.

Ans. (c) The crux of the passage is keystone species ensure species diversity as keystone species may influence both the species richness of community and flow of energy and material through the ecosystem and its preferred prey is *mytilus californianus*.

20. With reference to the passage, consider the following statements :

1. Mussels are generally the dominant species in intertidal ecosystems.
2. The survival of sea stars is generally determined by the abundance of mussels.

Which of the statements given above is/are correct?

(a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

Ans. (d) Statement 1 & 2 both are wrong as mussels are not the dominant species in the intertidal ecosystem and also the survival of sea stars in not generally determined by the abundance of mussels as mussels are only a preferred prey of sea stars.

21. Which of the following is/are implied by the passage?

1. Mussels are always hard competitors for sea stars.
2. Sea stars sof the Pacific coast have reached the climax of their evolution.
3. Sea stars constitute an important component in the energy flow in intertidal ecosystem.

Which of the statements given above is/are correct?

(a) 1 and 2 (b) 2 only
(c) 1 and 3 (d) 3 only

Ans. (d) According to the passage, keystone species may influence both the species richness of community and flow of energy and material through ecosystem. The sea stars Pisaster ochraceus is an example of keystone species.

22. Consider the following assumptions :

1. The food chains/food web in an ecosystem are influenced by keystone species.
2. The presence of keystone species is a specific characteristic of aquatic ecosystems.
3. If the keystone species is completely removed from an ecosystem, it will lead to the collapse of the ecosystems

With reference to the passage, which of the above assumptions is/are valid?

(a) 1 only (b) 2 and 3 only
(c) 1 and 3 only (d) 1, 2 and 3

Ans. (c) The keystone species may influences both the species richness of community and flow of energy and material through ecosystem which means if keystone species are completely removed or disturbed from an ecosystem then it may lead to disturbance or collapse of the ecosystem. So, statement 3 is valid as per the passage. The sea star which is an example of keystone species, its preferred prey is the mussel which shows that food chain/food web in an ecosystem are influenced by keystone species.

Direction for the following 5 (five) items :

Read the following passage and answer the items that follow. Your answer to these items should be based on the passage only.

Passage

Now India's children have a right to receive at least eight years of education, the gnawing question is whether it will remain on paper or become a reality. One hardly needs a reminder that this right is different from the others enshrined in the Constitution, that the beneficiary-a six year old child cannot demand it, nor can she or he fight a legal battle when the right is denied or violated. In all cases, it is the adult society which must act on behalf or the child. In another peculiarity, where a child's right to education is denied, no compensation offered later can be adequate or relevant. This is so because childhood does not last. If a legal battle fought on behalf of a child is eventually won, it may be of little use to the boy or girl because the opportunity missed at school during childhood cannot serve the same purpose later in life. This may be painfully true for girls because our society permits them only a short childhood, If at all. The Right to Education (RTE) has become law at a point in India's history when the ghastly practice of female infanticide has resurfaced in the form of feticide. This is ''symptomatic of a deeper turmoil' in society which is compounding the traditional obstacles to the education of girls. Tenacious prejudice against the intellectual potential of girls runs across our cultural diversity and the system of education has not been able to address it.

23. With reference to the passage, consider the following statements :

1. When children are denied education, adult society does not act on behalf of them.
2. Right to Education as a law cannot be enforced in the country.
