LOGICAL & ANALYTICAL ABILITY

33. Consider the following argument:
"In order to be a teacher one must graduate from collage. All poets are poor. Some Mathematicians are poets. No college graduate is poor."
Which one of the following is not a valid conclusion regarding the above argument?
(a) Some Mathematicians are not teachers.
(b) Some teachers are not Mathematicians.
(c) Teachers are not poor.
(d) Poets are not teachers

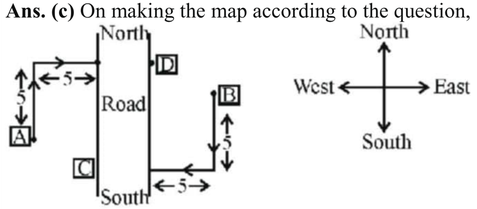

Ans. (b)

∵ In order to be a teacher one must graduate from college.
Conclusion "Some teachers are not mathematicians" is not valid.

34. The houses of A and B face each other on a road going north-south, A's being on the western side. A comes out of his house, turns left, travels 5 km, turn right, travels 5 km to the front of D's house. B does exactly the same and reaches the front of C's house. In this context, which one of he following statements is correct?
(a) C and D live on the same street .
(b) C's house faces south.
(c) The house of C and D are less than 20 km apart.
(d) None of the above.

Ans. (c) On making the map according to the question,

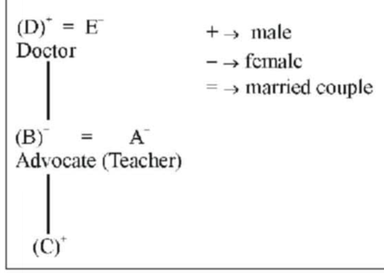

Hence,
By map, The house of C and are less than 20km.

Read the following passage and answer the 3 (three) items that follow :

A, B, C, D and E are members of the same family. There are two fathers, two sons, two wives, three males and two females. The teacher was the wife of a lawyer who was the son of a doctor. E is not a male, neither also a wife of a professional. C is the youngest person in the family and D is the eldest. B is a male.

The blood relation graph from question no. 35 to question no. 37 (Solution)

35. How is D related to E ?
(a) Husband (b) Son
(c) Father (d) Wife

Ans. (a) "D" is husband of "E"

36. Who are the females in the group?
(a) C and E (b) C and D
(c) E and A (d) D and E

Ans. (c) The females in the group ⇒ E and A

37. Whose wife is the teacher?
(a) C (b) D
(c) A (d) B

Ans. (d) B's wife is teachers.

DECISION MAKING ABILITY

38. You are the officer-in-charge of a village administering distribution of vaccine in an isolated epidemic hit village, and you are left with only one vaccine. There is a requirement of that vaccine from the Gram Pradhan and also a poor villager. You are being pressurized by the Gram Pradhan to issue the vaccine to him. You would
(a) initiate the procedure to expedite the next supply without issueing the vaccine to either
(b) arrange vaccine for the poor villager from the distributor of another area.
(c) ask both to approach a doctor and get an input about the urgency.
(d) arrange vaccine for the Gram Pradhan from the distributor of another area.

Ans. (b or d) According to the situation, we need to act like, firstly arrange vaccine for the poor villager from the distributor of another area or arrange vaccine for the Gram Pradhan from the distributor of another area.

39. You have taken up a project to create night-shelters for homeless people during the winter season. Within a week of establishing the shelters, you have received complaints from the residents of the area about the increase in theft cases with a demand to remove the shelters. You would
(a) Ask them to lodge a written complaint in the police station
(b) Assure residents of an enquiry into the mater
(c) Ask residents to consider the humanitarian effort made
(d) Continue with the project and ignore their complaint

Ans. (b or c) According to the situation, we need to assure residents of an enquiry into the matter or also ask residents to consider the humanitarian effort made.

40. You, as an administrative authority, have been approached, by the daughter-in-law of an influential person regarding harassment by her in-laws on account of insufficient dowry. Her parents are not able to approach you because of social pressures. You would-
(a) call the in-laws for an explanation
(b) counsel the lady to adjust, given such a circumstance
(c) take action after her parents approach you
(d) ask her to lodge a complaint with the police

Ans. (a or d) According to the situation, we need to ask explanation from in-laws family or ask her to lodge a complaint with the police.

GENERAL MENTAL APTITUDE

41. Consider the following three statements :
1. Only students can participate in the race
2. Some participants in the race are girls
3. All girl participants in the race are invited for coaching

Which one of the following conclusions can be drawn from the above statements?
(a) All participants in the race are invited for coaching
(b) All students are invited for coaching
(c) All participants in the race are students
(d) None of the statements (a), (b) and (c) given above is correct

Ans. (c) "All participants in the race are students" is correct.

Direction for the following 2 (two) items
Each of the following two items consists of four statements. Of these four statements, two cannot both be true, but both can be false. Study the statements carefully and identify the two that satisfy the above condition Select the correct answer using the codes given below each set of statements :

42. Examine the following statements :
1. All animal are carnivorous
2. Some animals are not carnivorous.
3. Animals are not carnivorous.
4. Some animals are carnivorous.

Code:
(a) 1 and 3 (b) 1 and 2
(c) 2 and 3 (d) 3 and 4

Ans. (a) ∵ The given condition is, of these statements, two cannot both true, but both can be false.
∴ Statement 1 (All animals are carnivorous) and statement 3 (Animals are not carnivorous) are followed the condition.

43. Examine the following statements :
1. All trains are run by diesel engine
2. Some trains are run by diesel engine
3. No train is run by diesel engine.
4. Some trains are not run by diesel engine.

Code:
(a) 1 and 2 (b) 2 and 3
(c) 1 and 3 (d) 1 and 4

Ans. (c) ∵ The given condition is, of these statements, two cannot both true, but both can be false.
∴ Statement (1) (All trains are run by diesel engine) and statement (3) (No train is run by diesel engine)

44. Consider the following figures :

2	6
80	24

3	?
120	36

What is the missing number?
(a) 7 (b) 8
(c) 9 (d) 10

Ans. (c) Just as,
$2 \times 3 = 6$
$6 \times 4 = 24$
$24 \times 3 + 2 \times 4 = 80$
Similarly,
$3 \times 3 = 9$
$9 \times 4 = 36$
$36 \times 3 + 3 \times 4 = 120$
∴ Missing Number = $3 \times 3 = 9$
