**Which one of the following statements correct in respect of the above data ?**

(a) Population increase by 5% or more every year
(b) Income increased by 10% or more every year.
(c) Per capita income was always above Rs. 5,000
(d) Per capita income was highest in 1994.

**Ans. (c)** Per capital income in 1992 = 5050
Per capita income in 1993 = 5290
Per capita income in 1994 = 5568
Per capita income in 1995 = 5847
Hence, Per capita income was always above Rs. 5000

**68. A bell rings every 18 minutes. A second bell rings every 24 minutes. A third bell rings every 32 minutes. If all the three bells ring at the same time at 8 O'clock in the morning, at what other time will they all ring together?**

(a) 12 : 40 hrs
(b) 12 : 48 hrs
(c) 12 : 56 hrs
(d) 13 : 04 hrs

**Ans. (b)** The L.C.M. 18, 24 and 32
= 288 min
$= \frac{288}{60}$ hr
= 4 : 48 min
The time when they will all ring together
= (8 + 4 : 48)
= 12 : 48 hr

**69. A an B decide to travel from place X to place Y by bus. A has Rs. 10 with him and he finds that it is 80% of the bus fare for two persons. B finds that he has Rs. 3 with him and hands it over to A. In this context, which one of the following statements is correct ?**

(a) Now the money A has just enough to buy two tickets.
(b) A still needs Rs. 2 for buying the tickets
(c) After bying the two tickets A will be left with 50 paise.
(d) The money A now has is still not sufficient to buy two tickets.

**Ans. (c)** Let the required Amount = x ₹
According to question,
80% of x = 10
$x = \frac{10 \times 100}{80} = 10$
x = 12.5
The total amount which A and B have
= 10 + 3
= 13
Remaining Amount = 13 – 12.5
= 0.50 ₹ = 50 paise

**70. As per agreement with a bank, a businessman had to refund a loan in some equal installments without interest. After paying 18 installments he found that 60 percent of his loan was refunded. How many installments were there in the agreement.**

(a) 22 (b) 24
(c) 30 (d) 33

**Ans. (c)** Let the number of installments = x
According to question
6 % of x 18
$x \times \frac{60}{100} = 18$
$x = 30$

**71. A worker reaches his factory 3 minutes late. If his speed from his house to the factory is 5 km/ hr. If he walks at a speed of 6 km/hr then he reaches the factory 7 minutes early. The distance of the factory from his house is .**

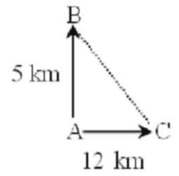

(a) 3 km (b) 4 km.
(c) 5 km (d) 6 km.

**Ans. (c)** Factory from his house
$= \frac{5 \times 6}{6-5} \times \left(\frac{3}{60} + \frac{7}{60}\right) = \frac{30}{1} \times \frac{10}{60} = 5$ km

**72. Location of B is north of A and location of C is east of A . The distances AB and AC are 5 km. and 12 km respectively. The shortest distance (in km) between the location B and C is**

(a) 60 (b) 13
(c) 17 (d) 7

**Ans. (b)** According to question,

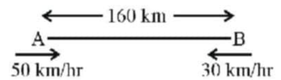

The distance between B and C
$= \sqrt{5^2 + 12^2} = \sqrt{169} = 13$ km.

**73. Two cars starts towards each other, from two places A and B which are at a distance of 160 km. They start at the same time 08:10 AM. If the speeds of the cars are 50 km. and 30 km per hour respectively, they will meet each other at**

(a) 10 : 10 AM (b) 10 : 30 AM
(c) 11.10 AM (d) 11 : 20 AM

**Ans. (a)**

∴ Relative speed = (50 + 30) km/hr
= 80 km/hr
$\because t = \frac{d}{v}$ $t = \frac{160}{80}$, t = 2 hr.

**74. For a charity show, the total tickets sold were 420 Half of these tickets were sold at the rate of Rs.5 each. one-third at the rate Rs. 3 each and the rest for Rs. 2 each. What was the total amount received.**

(a) Rs. 900 (b) Rs. 1,540
(c) Rs. 1,610 (d) Rs. 2,000

**Ans. (c)** Total amount =
$\left(420 \times \frac{1}{2} \times 5\right) + \left(420 \times \frac{1}{3} \times 3\right) + 420 \times \left(1 - \frac{1}{2} - \frac{1}{3}\right) \times 2$
$= (210 \times 5) + (420) + 420 \times \left(\frac{6-3-2}{6}\right) \times 2$
$= 1050 + 420 + 420 \times \frac{1}{6} \times 2 = 1050 + 420 + 140 = 1610$ ₹

## ENGLISH LANGUAGE/GRAMMAR & COMPREHENSION

**Directions for the following 6 (six items) : The following six items are based on two passages in English to test the comprehension of English language and therefore these items do not have Hindi version. Read each passage and answer the item that follows.**

### Passage-1

In front of us was walking a bareheaded old man in tattered clothes. He was driving his beasts. They were all laden with heavy loads of clay from the hills and looked tired. The man carried a long whip which perhaps he himself had made. As he walked down the road he stopped now and then to eat the wild berries that grew on bushes along the uneven road. When he threw away the seeds, the bold birds would fly to peck at them. Sometimes a stray dog watched the procession philosophically and then began to bark. When this happened, my two little sons would stand still holding my hands firmly. A dog can sometimes be dangerous indeed.

**75. The author's children held his hands firmly because –**

(a) they were scared of the barking dogs
(b) they wanted him to pluck berries
(c) they saw the whip in the old man's hand
(d) the road was uneven

**Ans. (a)** According to the passage, the author's children held his hands firmly as they were scared of the barking dogs as sometime a stray dog watched the procession philosophically and then began to bark and also dog can sometimes be dangerous indeed.

**76. The expression "a stray dog watched the procession philosophically" means that –**

(a) the dog was restless and ferocious
(b) the dog stood aloof, looking at the procession with seriousness
(c) the dog looked at the procession with big, wondering eyes
(d) the dog stood there with his eyes closed

**Ans. (b)** The expression "a stray dog watched the procession philosophically means the dog stood aloof, looking at the procession with seriousness. So option (b) is correct.

### Passage-2

Cynthia was a shy girl. She believed that she was plain and untalented. One day her teacher ordered the entire class to show up for audition for the school play. Cynthia nearly died of fright when she was told that she would have to stand on stage in front of the entire class and deliver dialogues. The mere thought of it made her feel sick. But a remarkable transformation occurred during the audition. A thin, shy girl, her knees quaking, her stomach churning in terror, began to stun everyone with her excellent performance. Her bored classmates suddenly stopped their noisy chat to stare at her slender figure on the stage. At the end of her audition, the entire room erupted in thunderous applause.

**77. Cynthia was afraid to stand on stage because –**

(a) she felt her classmates may laugh at her
(b) her stomach was churning
(c) she lacked self-confidence
(d) she did not like school plays

**Ans. (c)** According to the passage, Cynthia was afraid to stand on stage because she lacked self-confidence.

**78. Cynthia's classmates were chatting because –**

(a) it was their turn to act next
(b) they were bored of the performances
(c) Cynthia did not act well
(d) the teacher had no control over them

**Ans. (b)** According to the passage, Cynthia's classmate were chatting because they were bored at the performance

**79. Cynthia's knees were quaking because –**

(a) she felt nervous and shy
(b) the teacher scolded her
(c) she was very thin and weak
(d) she was afraid of her classmates

**Ans. (a)** Cynthia's knees were quaking because, she felt nervous and shy.

**80. The transformation that occurred during the audition refers to –**

(a) the nervousness of Cynthia
(b) the eruption of the entire room in thunderous applause
(c) the surprise on the faces of her classmates
(d) the stunning performance of Cynthia

**Ans. (d)** According to the passage, a thin shy girl has knees quaking her stomach churning in terror began to stun everyone with her excellent performance and thus option (d) is correct.
