35. Consider the following statements followed by two conclusions :

Statements : Some men are great.
Some men are wise.

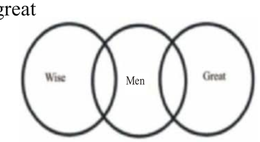

Conclusion I : Men are either great or wise.

Conclusion II : Some men are neither great nor wise.

Which one of the following is correct?

(a) Only conclusion I is valid
(b) Only conclusion II is valid
(c) Both the conclusions are valid
(d) Neither of the conclusions is valid

Ans. (d) :
Wise men great

I. Men are either great or wise - It is possible but not definite, hence false.
II. Some men are neither great nor wise - It is possible but not definite, hence false.
Hence, neither conclusion I nor conclusion II is valid.

36. Consider the following statements :

1. Some claim to have seen UFOs (Unidentified Flying Objects).
2. Life on other heavenly bodies is considered to be a possibility.
3. Voyage to space is now an established fact.

From the above statements, it may be concluded that

(a) UFOs are heavenly bodies
(b) UFOs are sent from other heavenly bodies
(c) Some living species in other heavenly bodies are more intelligent than man
(d) Nothing definite can be said about the UFOs

Ans. (d) : According to question, there is no direct connection between UFO celestial bodies and space travels. Hence it is clear that option (d) is the correct answer.

37. In a society it is customary for friends of the same sex to hug and for friends of opposite sex to shake hands when they meet. A group of friends met in a party and there were 24 handshakes.
Which one among the following numbers indicates the possible number of hugs?

(a) 39 (b) 30
(c) 21 (d) 20

Ans. (c) : Let the number of men and women be m & f
$m \times f = 24$
(1) 24×1
(2) 12×2
(3) 4×6
Number of hugs in the first position
$= {}^{24}C_2 = 273$
Number of hugs in the second position
$= {}^{12}C_2 + {}^{2}C_2 = 67$
Number of hugs in the third position
$= {}^{4}C_2 + {}^{6}C_2 = 6+15 = 21$
Only one of the three values in given so the answer will be 21.

38. Two men, Anil and David, and two women, Shabnam and Rekha are in a sales group. Only two speak Tamil. The other two speak Marathi. Only one man and one woman can drive a car. Shabnam speaks Marathi. Anil speaks Tamil. Both Rekha and David can drive.
Which of the following statements is true?

(a) Both the Tamil speakers can drive a car.
(b) Both the Marathi speakers can drive a car.
(c) Both of those who can drive a car speak Marathi.
(d) One of those who can drive a car speaks Tamil.

Ans. (d) :
Let Δ represent male and O represents female.

Tamil Δ	Δ Driver
Anil	David
Marathi O	O Driver
Shabnam	Rekha

So, it is clear that either David or Rekha is a Tamil Speaker.

39. A society consists of only two types of people - fighters and cowards. Two cowards are always friends. A fighter and a coward are always enemies. Fighters are indifferent to one another. If A and B are enemies, C and D are friends, E and F are indifferent to each other, A and E are not enemies, while B and F are enemies.
Which of the following statements is correct?

(a) B, C and F are cowards.
(b) A, E and F are fighters.
(c) B and E are in the same category.
(d) A and F are in different categories.

Ans. (b) :

Fighters	Cowards
A	B
F	C
E	D

Hence, option (b) is the correct answer.

40. Candidates in a competitive examination consisted of 60% men and 40% women. 70% men and 75% women cleared the qualifying test and entered the final test where 80% men and 70% women were successful.
Which of the following statements is correct?

(a) Success rate is higher for women.
(b) Overall success rate is below 50%
(c) More men cleared the examination than women.
(d) Both (a) and (b) above are correct.

Ans. (c) : Let initial population be 100.

Men	Women
↓60%	↓40%
60	40
↓70%	↓75%
42	30
↓80%	↓70%
33	21

It clear that more men cleared the examination than women.

41. In a box of marbles, there are three less white marbles than the red ones and five more white marbles than the green ones. If there are a total of 10 white marbles, how many marbles are there in the box?

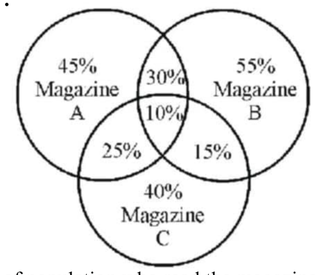

(a) 26 (b) 28
(c) 32 (d) 36

Ans. (b) : Number of white marbles = 10
Number of red marbles = 10 + 3 = 13
Number of green marbles = 10 – 5 = 5
Total number of marbles in the box = 10+13+5=25

42. In a town, 45% population read magazine A, 55% read magazine B, 40% read magazine C, 30% read magazines A and B, 15% read magazines B and C, 25% read magazines A and C; and 10% read all the three magazines. What percentage do not read any magazine?

(a) 10% (b) 15%
(c) 20% (d) 25%

Ans. (c) :

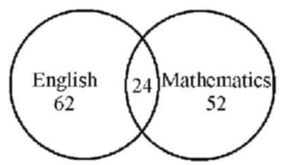

Number of population who read the magazine
= (45 + 55 + 40) – (30 + 25 + 15) + 10
= 140 – 70 + 10 = 80%
Number of population who do not read magazine
= 100 – 80 = 20%

43. Out of 130 students appearing in an examination, 62 failed in English, 52 failed in Mathematics, whereas 24 failed in both English and Mathematics. The number of students who passed finally is

(a) 40 (b) 50
(c) 55 (d) 60

Ans. (a) :

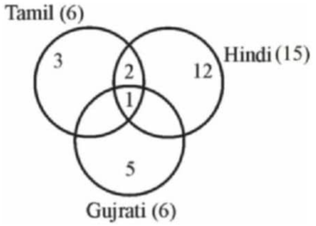

Total students = 130
Total students failed = (62 + 52) – 24
= 114 – 24 = 90
Number of students passed finally
= 130 – 90
= 40

44. In a group of persons travelling in a bus, 6 persons can speak Tamil, 15 can speak Hindi and 6 can speak Gujarati. In that group none can speak any other language. If 2 persons in the group can speak two languages only and one person can speak all the three languages, then how many persons are there in the group?

(a) 21 (b) 22
(c) 23 (d) 24

Ans. (c) :

∴ The correct answer is option (c).

45. In a parking area, the total number of wheels of all the cars (four-wheelers) and scooters/ motorbikes (two-wheelers) is 100 more than twice the number of parked vehicles. The number of cars parked is

(a) 35 (b) 45
(c) 50 (d) 55

Ans. (c) :
Let, number of cars = a
Number of two – wheelers = b
$4a + 2b = 2(a + b) + 100$
$2a = 100$
$a = 50$
∴ Correct answer is option (c).

46. The mangroves can shed tons of leaves per acre every year; fungi and bacteria break down this leaf litter and consume it, they then are consumed by tiny worms and crustaceans, which in turn feed small fish, which feed larger fish and birds and crocodiles.
Which among the following is the *most logical inference* of the above statement?

(a) Coastal areas cannot have food chains without mangroves.
(b) Mangroves are an essential component of all marine ecosystems.
(c) Mangroves have a crucial role in some of the coastal food chains.
(d) The composition of marine flora and fauna is largely determined by mangroves.

Ans. (c) : It is clearly known from reading the passage that mangrove forests play a crucial role in certain coastal food chains. Hence, option (C) is the correct answer.

47. "By liberty I mean the eager maintenance of that atmosphere in which men have the opportunity to be their best selves."
Which one of the following expresses the *view implied* in the above statement?

(a) Liberty is the absence of restraint on human action.
(b) Liberty is what law permits people to perform.
