(c) Liberty is the ability to do what one desires.
(d) Liberty is the maintenance of conditions for the growth of human personality.

Ans. (d) : The view implied in the statement in question, liberty is to maintain the conditions necessary for the growth of human personality. Emphasizes perspective.

48. Twelve people form a club. By picking lots, one of them will host a dinner for all once in a month. The number of dinners a particular member has to host in one year is
(a) One (b) Zero
(c) Three (d) Cannot be predicted

Ans. (d) : How many times particular member will have host the dinner in a year? It cannot be known clearly as it is chosen at random so may be not everyone gets a chance. Hence, option (d) is the correct answer.

49. Consider the following statements :
1. A man had a wife, two sons and two daughters in his family.
2. The daughters were invited to a feast and the male members of the family went out to take part in a picnic.
3. The man's father did not return from his work.

Which of the following statements is true?
(a) Only the man's wife was left at home.
(b) It is likely that the man's wife was left at home.
(c) None was left at home.
(d) More than one person was left at home.

Ans. (b) : Since, the father has not returned from work. The male members have gone for a picnic. The daughters are out for the feast. We can say that there is a strong possibility that only the wife of that person is alone in the house. Hence, option (b) is the correct answer.

50. Geeta : Naresh has become a better boxer since he started meditation.

Radha : Impossible. A boxer's most important asset is his aggressiveness.

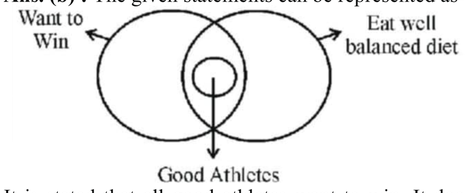

Radha's statement reflects her belief that
(a) meditation tends to make a person less aggressive.
(b) meditation has little or no effect on the person who practises it.
(c) Naresh was a poor boxer earlier because he was not aggressive enough.
(d) Naresh would not have taken to meditation as he was a boxer.

Ans. (a) : Radha refuses to accept Geeta's logic because she believes that one cannot become a good boxer by meditating, as the most important quality of any boxer is his aggression. Therefore, we can easily conclude that Radha believes that meditation reduces aggression. Hence, option (a) is the correct answer.

51. All good athletes want to win and all athletes who want to win eat a well-balanced diet; therefore all athletes who do not eat a well-balanced diet are bad athletes.

The best conclusion from this statement is that
(a) no bad athlete wants to win.
(b) no athlete who does not eat a well-balanced diet is a good athlete.
(c) every athlete who eats a well-balanced diet is a good athlete.
(d) all athletes who want to win are good athletes.

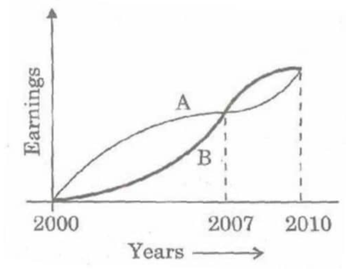

Ans. (b) : The given statements can be represented as-

It is stated that all good athletes want to win. It does not mean that no one wants to win. Hence, (b) is true. There can be people other than good athletes, who eat well balanced diet.

GENERAL MENTAL APTITUDE

52. The graph below depicts the earnings of A and B over the period 2000 to 2010 :

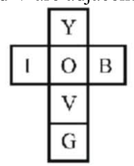

From the graph, which one of the following can be concluded?
(a) On the average A earned more than B during this period.
(b) On the average B earned more than A during this period.
(c) The earnings of A and B were equal during this period.
(d) The earnings of A were less as compared to B during this period.

Ans. (a) :
From given years 2000 to 2007 Earnings of A > Earnings of B,
So, Average of A > Average of B
Hence, It can be conducted that the average of A earned more than B during this period.

53. Each of the six different faces of a cube has been coated with a different colour i.e. V, I, B, G, Y and O. Following information is given :
1. Colours Y, O and B are on adjacent faces.
2. Colours I, G and Y are on adjacent faces.
3. Colours B, G and Y are on adjacent faces.
4. Colours O, V and B are on adjacent faces.

Which is the colour of the face opposite to the face coloured with O?
(a) B (b) V
(c) G (d) I

Ans. (c) : From 2 and 3, I and B are on opposite faces. From 1 and 4, Y and V are adjacent to O.

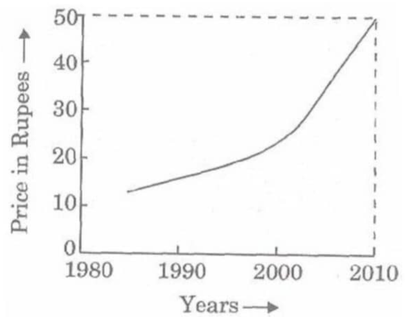

Hence, G is the colour of the face opposite to the face coloured with O

54. If ABC × DEED = ABCABC; where A, B, C, D and E are different digits, what are the values of D and E?
(a) D = 2, E = 0 (b) D = 0, E = 1
(c) D = 1, E = 0 (d) D = 1, E = 2

Ans. (c) : Whenever are multiply a three digit number, let us say xyz to 1001 then we get xyz xyz as a result.
Implies, DEED represents 1001.
Hence, the values of D and E are 1 and 0

55. Year-wise variation of the price of a certain commodity is shown in the following graph :

The price of the commodity in the year 1990
(a) must have been ₹ 10/-
(b) must have been ₹ 12/-
(c) must have been anywhere between ₹ 10/- and ₹ 20/-
(d) is higher than that in the year 1991

Ans. (c) : On looking at the graph it is clearly known that in 1990 the price should be between Rs. 10 to Rs. 20. Hence, option (c) is the correct answer.

56. The proportion of expenditure on various items by two families A and B are represented in the following Bar Charts :

50% Food
30% Other items
20% Education

10% Food
60% Other items
30% Education

Family A
Total expenditure : ₹ 20,000 per month

Family B
Total expenditure : ₹ 1,00,000 per month

From these charts, we can conclude that
(a) Family A spent more money on food than Family B.
(b) Family B spent more money on food than Family A.
(c) Family A and Family B spent the same amount on food.
(d) The expenditure on food by Family A and Family B cannot be compared.

Ans. (c) :
Expenditure on food by A = 50% of 20,000 = 10,000
Expenditure on food by B = 10% of 1,00,000 = 10,000
∴ The correct answer is option (c).

57. Usha runs faster than Kamala, Priti runs slower than Swati, Swati runs slower than Kamala. Who is the slowest runner?
(a) Kamala (b) Priti
(c) Swati (d) Usha

Ans. (b) :
Usha > Kamala, Swati > Priti and Kamala > Swati
∴ Therefore sequence will be-
Usha > Kamala > Swati > Priti
⇒ Correct answer is option (b)

58. Between 6 PM and 7 PM the minute hand of a clock will be ahead of the hour hand by 3 minutes at
(a) 6:15 PM (b) 6:18 PM
(c) 6:36 PM (d) 6:48 PM

Ans. (c) : Between 6 pm and 7 pm at 6 : 36 the minute hand of a clock will be 3 minutes ahead of the hour hand.

59. There are 5 tasks and 5 persons. Task-1 cannot be assigned to either person-1 or person-2. Task-2 must be assigned to either person-3 or person-4. Every person is to be assigned one task. In how many ways can the assignment be done?
(a) 6 (b) 12
(c) 24 (d) 144

Ans. (c) : Case I : Let us assume that task 2 was assigned to person 3.

Case II : Let us assume that task 2 was assigned to person 4.
