(c) The framers of the Constitution did not envisage the problems being encountered by the civil services
(d) There is a need and scope for reforms to improve the accountability of civil services

Ans. (d) : The essential message underlying the passage is that there is a need and scope for reforms to enhance the accountability of the civil services. Some such rules can be made in which the responsibility of the civil servants can be made and the work can be completed on time.

4. According to the passage, which one of the following is not a means of enhancing internal accountability of civil services ?
(a) Better job security and safeguards
(b) Supervision by Central Vigilance Commission
(c) Judicial review of executive decisions
(d) Seeking accountability through enhanced participation by people in decision making process

Ans. (d) : According to the passage, finding accountability by increased people's participation in the decision-making process is not a means for promoting internal accountability of the civil services. But for better services, it is necessary to give importance to the participation of the people, only then these will be improvement in the bureaucracy and accountability will increase.

Passage -2

In general religious traditions stress our duty to god, or to some universal ethical principle. Our duties to one another derive from these. The religious concept of rights is primarily derived from our relationship to this divinity or principles and the implication it has on our other relationships. This correspondence between rights and duties is critical to any further understanding of justice But for justice to be practiced; virtue, rights and duties cannot remain formal abstraction. They must be grounded in a community (common unity) bound together by a sense of common union (communion).Even as a personal virtue, this solidarity is essential to the practice and understanding of justice.

5. With reference to the passage, the following assumptions have been made :
1. Human relationships are derived from their religious traditions
2. Human beings can be duty bound only if they believe in god
3. Religious traditions are essential to practice and understand justice
Which of these assumption (s) is /are valid?
(a) 1 only
(b) 2 and 3
(c) 1 and 3 only
(d) 1, 2 and 3

Ans. (a) : The religious concept of rights is derived primarily from our relationship to this divinity or principle and its implications for our other relationships.

6. Which one of the following is the crux of this passage ?
(a) Our duties to one another derive from our religious traditions
(b) Having relationship to the divine principle is a great virtue
(c) Balance between rights and duties is crucial to the delivery of justice in a society
(d) Religious concept of rights is primarily derived from our relationship to god

Ans. (c) : The point of this passage is that the balance between rights and duties is crucial for the delivery of justice in the society. Complete justice is possible only when the ruling class performs its duties fully, which is in the public interest, this will fulfill the demand of rights.

7. A ate grapes and pineapple; B ate grapes and oranges; C ate oranges, pineapple and apple; D ate grapes, apple and pineapple. After taking fruits, B and C fell sick . In the light of the above facts, it can be said that the cause of sickness was :
(a) Apple (b) Pineapple
(c) Grapes (d) Oranges

Ans. (d) :
A - Grapes, Pineapples
B - Grapes, Oranges
C - Oranges, Pineapples, apples
D - Grapes, Apples, Pineapples
$\because$ After taking fruits B and C fell sick.
$\therefore$ The fruits which was eaten by B and C was oranges.
hence, it can be said that the cause of sickness was oranges.

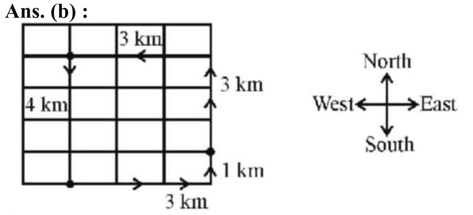

8. Consider the following statements :
1. The rate of population growth is increasing in the country
2. The death rqate is declining faster in the country compared to birth rate
3. The birth rate is declining faster in the country compared to death rate
4. Rural–urban migration is taking place regularly in the country

Which one of the following conclusions may be true the light of the above facts ?
(a) The rate of population growth is increasing due to rural –urban migration
(b) The rate of population growth is increasing due to decline in death rate only
(c) The rate of population growth is increasing due to increase in birth rate only
(d) The rate of population growth is increasing due to faster decline in death rate than in birth rate

Ans. (d) : In the light of the above facts, it is concluded that the population growth rate is increasing due to the rapid decline in the death rate. The reason for the reduction in mortality is better health. For this reason life expectancy is increasing. In spite of the decrease in the birth rate, the population is increasing.

9. A person X was driving in a place where all roads ran either north-south or east-west, forming a grid. Roads are at a distance of 1 km from each other in a parallel. He started at the intersection of two roads, drove 3 km north, 3 km west and 4 km south. Which further route could bring him back to his starting point, if the some route is not repeated?
(a) 3 km east, then 2 km south
(b) 3 km east, then 1 km north
(c) 1 km north, then 2 km west
(d) 3 km south, then 1 km north

Ans. (b) :

3 km east, then 1 km north.

10. Consider the following statement :
''We shall go either for a picnic or for trekking''
Which of the following, if true, would falsify this claim ?
(a) We go for a picnic but not for trekking
(b) Activities such as picnic and trekking are encouraged by the health authorities
(c) We go for trekking and not for picnic
(d) We do not go either for picnic or for trekking

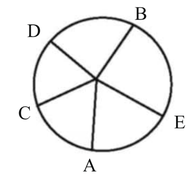

Ans. (d) : If "we do not go either for picnic or for trekking" is true, then we shall go either for a picnic or for trekking would falsify.

11. There were 50 faculty member comprising, 30 males and the rest females. No male faculty member knew music, but many of the female faculty members did. The Head of the institution invited six faculty members to a tea party by draw of lots. At the party it was discovered that no members knew music. The conclusion is that :
(a) the party comprised male faculty members only
(b) the party comprised only those female faculty members who could not give renderings in music
(c) the party comprised both male and female faculty members
(d) nothing can be said about the gender composition of the party

Ans. (d) : Among the invited people, there may be men as well as women who do not have knowledge of music.
Hence, nothing can be said about the gender composition of the party.

12. Five people A, B, C, D and E are seated about a round table. Every chair is spaced equidistant from adjacent chairs.
(i) C is seated next to A
(ii) A is seated two seats from D
(iii) B is not seated next to A
On the basis of above information, which of the following must be true ?
1. D is seated next to B
2. E is seated next to A
3. D and C are separated by two seats
Select the correct answer using the code give below :
(a) 1 only
(b) 1 and 2 only
(c) 3 only
(d) Neither 1 nor 2 nor 3

Ans. (b) :

Only 1 & 2 most be true.

13. There are five hobby clubs in a college photography, yachting, chess, electronics and gardening. The gardening, group meets every second day, the electronics groups meet every third day, the chess group meets every fourth day, the yachting group meets every fifth day and the photography group meets every sixth day. How many times do all the five groups meet on the same day within 180 day?
(a) 5 (b) 18
(c) 10 (d) 3

Ans. (d) :
The L.C.M. of (2, 3, 4, 5, 6) = 60
Required number of days $= \frac{180}{60}$
$= 3$

14. There are some nectar-filled flowers on a tree and some bees are hovering on it. If one bee lands on each flower, one bee will be left out. If two bees land on each flower, one flower will be left out. The number of flowers and bees respectively are :
(a) 2 and 4 (b) 3 and 2
(c) 3 and 4 (d) 4 and 3

Ans. (c) :
Let number of bees = x
and number of flowers = y
$y \times 1 + 1 = x$
$y + 1 = x$ ..... (i)
and $2(y - 1) = x$ .....(ii)
From eq[n] (i) & (ii)
$y + 1 = 2(y - 1)$
$y + 1 = 2y - 2$
$3 = y$
