Passage-6

The States are like pearls and the Centre is the thread which turns them into a necklace; if the read snaps, the pearls are scattered.

29. Which one of the following views corroborates the above statement?

(a) A strong Centre and strong States make the federation strong.
(b) A strong Centre is a binding force for national integrity.
(c) A strong Centre is a hindrance to State autonomy.
(d) State autonomy is a prerequisite for a federation.

Ans. (b) : Our country India is a country with many states. The living style, dialect, costume of each state is different. These states are controlled by the governments there, but the central government controls the country that has been formed by combining all these states. therefore, a powerful center is a binding force for national integrity.

Passage-7

Really I think that the poorest he that is in England has a life to live, as the greatest he, and therefore truly, I think it is clear that every inan that is to live under a government ought first by his own consent to put himself under the government, and I do think that the poorest man in England is not at all bound in a strict sense to that government that he has not had a voice to put himself under.

30. The above statement argues for

(a) distribution of wealth equally to all
(b) rule according to the consent of the governed
(c) rule of the poor
(d) expropriation of the rich

Ans. (b) : The statement of the given passage is presenting an argument in support of government according to the consent of the governed', because in this passage the person has been asked to submit himself under the government with his consent.

LOGICAL AND ANALYTICAL ABILITY

Directions for the following 2 (two) items:

Consider the given information and answer the two items that follow.

No supporters of 'party X', who knew Z and supported his campaign strategy, agreed for the alliance with 'party Y'; but some of them had friends in 'party Y'.

31. With reference to the above information, which one among the following statements must be true?

(a) Some supporters of 'party Y' did not agree for the alliance with the `party X'.
(b) There is at least one supporter of `party Y' who knew some supporters of 'party X' as a friend.
(c) No supporters of 'party X' supported Z's campaign strategy.
(d) No supporters of 'party X' knew Z.

Ans. (b) :

Any supporter of party 'X' → Knew 'Z'
Any supporter of party 'X' → Supported 'Z' Campaign Strategy

and

Any supporter of party 'X' → alliance with party 'y'
Any supporter of party 'X' → friend in party 'y'

by flow chart,
"There is at least one supporter of party y who knew some supporters of party 'x' as a friend". Must be true.

32. With reference to the above information, consider the following statement.

1. Some supporters of 'party X' knew Z
2. Some supporters of 'party X', who opposed Z's campaign strategy, knew Z.
3. No supporters of 'party X' supported Z's campaign strategy

Which of the statements given above, is/are not correct?

(a) 1 only
(b) 2 and 3 only
(c) 3 only
(d) 1, 2 and 3

Ans. (c) : Statement 1 is correct as it is given that there are some supporters of party X who knew Z and supported his campaign strategy
Statement 2 : nothing is mentioned about those supporters of party X who opposed Z
Statement 3 - is not correct as it goes against the information given in the question. Hence option C correct Ans.

33. Four tests—Physics, Chemistry, Mathematics and Biology are to be conducted on four consecutive days, not necessarily in the same order. The Physics test is held before the test which is conducted after Biology. Chemistry is conducted exactly after two tests are held. Which is the last test held?

(a) Physics (b) Biology
(c) Mathematics (d) Chemistry

Ans. (c) : According to question,
Physics, Biology, Chemistry, Mathematics.
Hence,
The last test is held mathematics.

34. The sum of income of A and B is more than that of C and D taken together. The sum of income of A and C is the same as that of B and D taken together. Moreover, A earns half as much as the sum of the income of B and D. Whose income is the highest?

(a) A (b) B
(c) C (d) D

Ans. (b) : A+B > C+D —— (i)
A+C = B+D —— (ii)
(B+D) = 2A —— (iii)
from eq (ii) & (iii)
A+C = 2A
C = A
Putting the value of 'c' in eq (i),
A+B > A+D
B > D
'B's income is the highest.

35. Consider the following :

Statement : Good voice is a natural gift but one has to keep practising to improve and well in the field of music.

Conclusions:

I. Natural gifts need nurturing and care.
II. Even though one's voice is not good, one can keep practising.

Which one of the following is correct, in respect of the above statement and conclusions?

(a) Only conclusion I follows from the statement.
(b) Only conclusion II follows from the statement.
(c) Either conclusion I or conclusion II follows from the statement.
(d) Neither couclusion I nor conclusion II follows from the statement.

Ans. (a) : Conclusion 1- Natural gifts need nurturing and care this is the correct because it is mentioned in the statement that one needs to keep practicing to improve and excel.

36. "Rights are certain advantageous conditions of social well being indispensable to the true development of the citizen."

In the light of this statement, which one of the following is the correct understanding of rights?

(a) Rights aim at individual good only.
(b) Rights aim at social good only.
(c) Rights aim at both individual and social good.
(d) Rights aim at individual good devoid of social well-being.

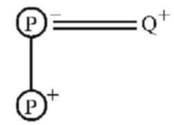

Ans. (c) : In respect of statement "Rights are certain advantageous condition of social well being indispensable to the development of the citizen," Rights aim at both individual and social good.

37. Consider the following:

A+ B means A is the son of B.
A - B means A is the wife of B.
What does the expression P + R - Q mean?

(a) Q is the son of P.
(b) Q is the wife of P.
(c) Q is the father of P.
(d) None of the above

Ans. (c) : ∵ A + B means A is the son of B.
A – B means A is the wife of B
then (P + R – Q)
P + R → P is the son of R
R – Q → P is the wife of Q
by sum up,

Hence,
Q is the father of P.

38. In a group of six women, there are four tennis players, four postgraduates in Sociology, one postgraduate in Commerce and three bank employees. Vimala and Kamla are the bank employees while Amala and Komala are unemployed. Komala and Nirmala are among the tennis players. Amala, Kamla, Komala and Nirmala are postgraduates in Sociology of whom two are bank employees. If Shyamala is a postgraduate in Commerce, who among the following is both a tennis player and a bank employee?

(a) Amala (b) Komala
(c) Nirmala (d) Shyamala

Ans. (c) :

Women	Work	Player	Study
Vimla	Bank	–	–
Kamla	Bank	–	Sociology
Amla	Unemployed	–	Sociology
Komala	Unemployed	Tennis	Sociology
Nirmala	Bank	Tennis	Sociology
Shyamala	–	–	Commerce

Hence,
Nirmala is both a tennis player and a bank employee.

39. P = (40% of A) + (65% of B) and
Q = (50% of A) + (50% of B)
Where A is greater than B.
In this context, which of the following statements is correct?

(a) P is greater than Q.
(b) Q is greater than P.
(c) P is equal to Q.
(d) None of the above can be concluded with certainty.

Ans. (d) :
∵ A > B
Condition (I)
∴ Let A = 100 and B = 80
then + = (40% of A) + (65% of B)

$$P = \left(\frac{40}{100}\times 100\right) + \left(\frac{65}{100}\times 80\right)$$

$$P = (40) + \left(\frac{65}{5}\times 4\right)$$

$$P = 40 + 52$$

$$\boxed{P = 92}$$

and
Q = (50% of A) + (5% of B)

$$Q = \left(\frac{50}{100}\times 100\right) + \left(\frac{50}{100}\times 80\right)$$
