44. A is studying in

(a) Rajasthan (b) Gujarat
(c) City Q (d) Kerala

Ans. (b)

Student	City	Subject	State
A	P/R	Commerce	Gujarat
B	Q	Science	Kerala
C	S	Arts	Rajasthan
D	P/R	Engineering	Assam

A is studing in Gujarat

45. Science college is located in

(a) City Q (b) City S
(c) City R (d) City P

Ans. (a) Science college is located in city Q.

46. C is studying in

(a) Science college (b) Rajasthan
(c) Gujarat (d) city Q

Ans. (b) C is studying in Rajasthan.

47. Which one of the following statements is correct?

(a) D is not studying in city S.
(b) A is studying in Science college
(c) A is studying in Kerala
(d) Engineering college is located in Gujarat.

Ans. (a) The correct statements:- D is not studying in city S.

48. Which one of the following statements is correct regarding Engineering college?

(a) C is studying there
(b) B is studying there
(c) It is located in Gujarat
(d) D is studying there

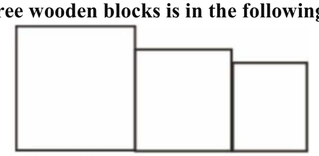

Ans. (d) The correct statement:- D is studying in engineering college.

49. Which one of the following statements is correct?

(a) Engineering college is located in Assam.
(b) City Q is situated in Assam.
(c) C is studying in Kerala
(d) B is studying in Gujarat.

Ans. (a) The correct statement,
(a) Engineering college is located in Assam.

50. For a sports meet, a winners' stand comprising three wooden blocks is in the following form :

There are six different colours available to choose from and each of the three wooden blocks is to be painted such that no two of them has the same colour. In how many different ways can the winner's stand be painted?

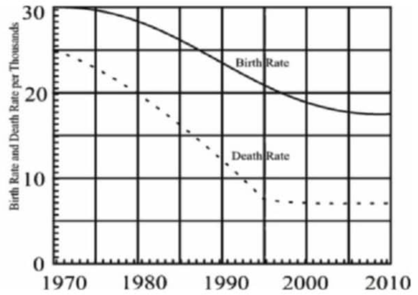

(a) 120 (b) 81
(c) 66 (d) 36

Ans. (a)
$\because$ Number of colours = 6
and number of wooden block = 3

Required ways $= \frac{6!}{3!}$

$= \frac{6\times5\times4\times3\times2\times!}{3!} = 120$

Directions for the following 2 (two) items :
Consider the following graph in which the birth rate and death rate of a country are given, and answer the two items that follow.

51. Looking at the graph, it can be inferred that from 1990 to 2010

(a) population growth rate has increased
(b) population growth rate has decreased
(c) growth rate of population has remained stable
(d) population growth rate shows no trend

Ans. (d)

Year	Birth rate	growth rate	Death Rate	Population
1990	22.5	13	9.5	
2000	18	7	11	
2010	17.5	7	10.5	

According to the above table conclusion is that, growth rate dose not show any trend. Option (d) is correct answer.

52. With reference to the above graph, consider the following statements considering 1970 as base year :

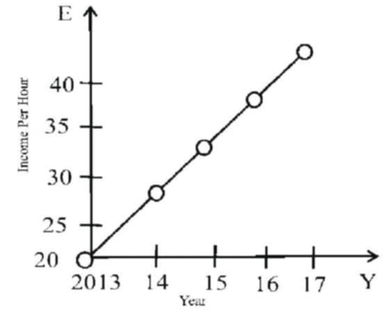

1. **Population has stabilized after 35 years.**
2. **Population growth rate has stabilized after 35 years.**
3. **Death rate has fallen by 10% in the first 10 years.**
4. **Birthrate has stabilized after 35 years.**

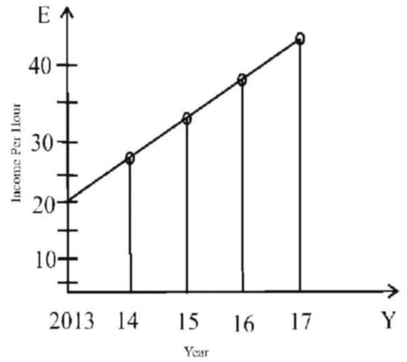

Which of the above are the most logical and rational statements that can be made from the above graph

(a) 1 and 2 only (b) 1, 2 and 3
(c) 3 and 4 (d) 2 and 4

Ans. (d) Statement (2) and (4) (population growth has become stable after 35 years and birth rate has become stable after 35 years) according to option (d) among the given alternatives is the most logical and rational statement that can be made from the graph.

53. Average hourly earnings per year (E) of the workers in a firm are represented in figures A and B as follows :

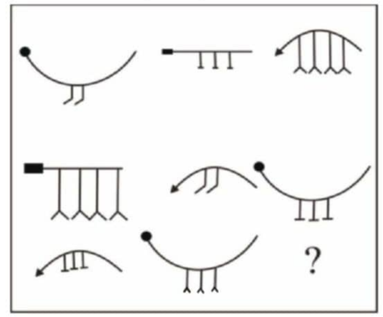

From the figures, it is observed that the

(a) values of E are different
(b) ranges (i.e., the difference between the maximum and the minimum) of E are different
(c) Slopes of the graphs are same
(d) rates of increase of E are different

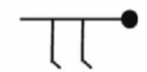

Ans. (c) Option a is wrong because value of E, are same in both graphs.
Option b is wrong because range of E are same in both graphs.
Option c is correct because slopes of graphs are same,
Option d is wrong because the rates of increase of E are same in both graphs.

54. Consider the figures given below :

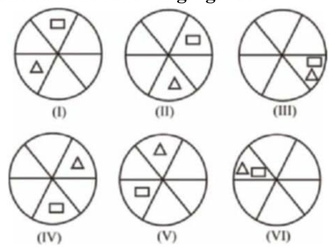

To fit the question mark, the correct answer is

(a)  (b) 

(c)  (d) 

Ans. (a) On the basis of above figures, the correct answer in the place of question mark is appropriate option (a).

55. Consider the following figures :

In the figures (I) to (VI) above, some parts are shown to change their positions in regular directions. Following the same sequence, which of the figures given below will appear at (VII) stage?

(a)  (b) 

(c)  (d) 

Ans. (b) In the given figures,
Triangle round the antic lock wise and square round the clock wise.
Hence, option (b) will appear at (VII) stage.
