77. Consider the following figures A and B :

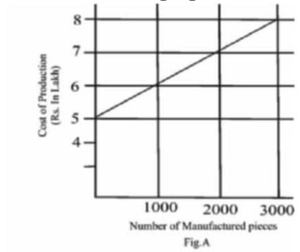

Fig.A

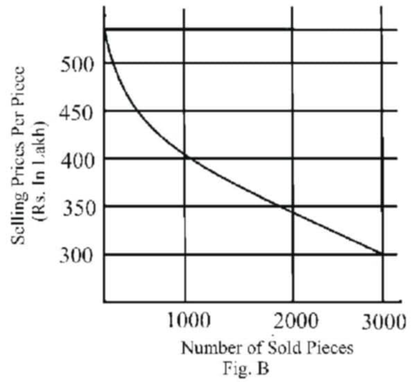

Fig. B

The manufacturing cost and projected sales for a product are shown in the above figures A and B respectively. What is the minimum number of pieces that should be manufactured to avoid a loss?

(a) 2000 (b) 2500
(c) 3000 (d) 3500

Ans. (a) According to figure A and B,
1000 CP = 600000 Rs
1000 SP = 400 × 1000
= 400000 Rs.
∵ 1000 L = 60, 0000 – 400000
= 20,0000
∵ 2000 CP = 70,0000
SP = 350 ×2000 = 700000
The cost price is equal to the sell price on 2000 pieces
Hence, minimum 2000 pieces should be manufactured to avoid a loss

78. A lift has the capacity of 18 adults or 30 children. How many children can board the lift with 12 Adults?

(a) 6 (b) 10
(c) 12 (d) 15

Ans. (b) ∵ 18 adults = 30 children
$\therefore$ 1 adult = $\frac{30}{18}$ children
Remaining adults = 18–12= 6 adults$\Rightarrow$ $6\times\frac{30}{18}$ children
$\left(\therefore 1\text{adult}=\frac{30}{18}\text{children}\right)$ = 10 children

79. A person bought a refrigerator worth Rs. 22,800 with 12.5% interest compounded yearly. At the end of first year he paid Rs. 8,650 and at the end of second year Rs. 9,125. How much will he have to pay at the end of third year to clear the debt?

(a) Rs. 9,990 (b) Rs.10,000
(c) Rs.10, 590 (d) Rs.11, 250

Ans. (d) After 1 year amount

$$=22800\left(1+\frac{12.5\times1}{100}\right)=22800\left(1+\frac{125}{1000}\right)$$

$$=22800\left(1+\frac{5}{40}\right)$$

$$=22800\left(\frac{9}{8}\right)=2850\times9=25650$$

∵ At the end of first year he paid = 8560₹
Remaining Amount = 25650 – 8650
= 17000₹

After two years, amount $=\Rightarrow 17000\left(1+\frac{12.5}{100}\right)$

$=17000\left(\frac{9}{8}\right)=2125\times9=19125$

∵ At end of second year he paid = 9125₹
$\therefore$ Now remaining amount
$\Rightarrow$19125 – 9125 $\Rightarrow$ 10,000
$\therefore$ After year, given amount

$$=10000\left(1+\frac{12.5\times1}{100}\right)=10000\left(\frac{9}{8}\right)$$

$= 1250 \times 9 \Rightarrow 11250$

80. If x-y = 8, Then which of the following must be true?

1. Both x and y must be positive for any value of x and y.
2. If x is positive, y must be negative for any value of x and y.
3. If x is negative, y must be positive for any value of x and y.

Select the correct answer using the code given below.

(a) 1 only (b) 2 only
(c) Both 1 and 2 (d) Neither 1 nor 2 nor 3

Ans. (d) ∵ Given x – y = 8
Consider the statements,
None of them are true.

UNION PUBLIC SERVICE COMMISSION

Civil Services (Preliminary Exam) - 2019

CSAT : PAPER-II

(Chapterwise Analysis with Explanation)

Time : 2 hours **Maximum Number : 200**

COMPREHENSION

Directions for the following 8 (eight) items :
Read the following **seven passages** and answer the items that follow each passage. Your answers to these items should be based on the passages only.

Passage- I

Political theorists no doubt have to take history of injustice, for example, untouchability, seriously. The concept of historical injustice takes note of a variety of historical wrongs that continue into the present in some form or the other and tend to resist repair. Two reasons might account for resistance to repair. One not only are the roots of injustice buried deep in history, injustice itself constitutes economic structures of exploitation, ideologies of discrimination and modes of representation. Two, the category of historical injustice generally extends across a number of wrongs such as economic deprivation, social discrimination and lack of recognition. This category is complex, not only because of the overlap between a number of wrongs, but because one or the other wrong generally discrimination, tends to acquire partial autonomy from others. This is borne out by the history of repair in India.

1. What is the *main idea* that we can infer from the passage

(a) Untouchability in India has not been taken seriously by political theorists.
(b) Historical injustice is inevitable in any society and is always beyond repair.
(c) Social discrimination and deprivation have their roots in bad economies.
(d) It is difficult, if not impossible, to repair every manifestation of historical injustice.

Ans : (d) Obtion (b) is clearly ruled out due to "……beyond repair". The passage howhere mentions that option (c) is not mentioned in this fashion. Option (a) sound correct, but is not our choice because the first political theorists have taken it seriously. Option (d) is the best.

2. On the basis of the above passage, the following assumptions have been made:

1. Removal of economic discrimination leads to removal of social discrimination.
2. Democratic polity is the best way to repair historical wrongs.

Which of the above assumptions is/are valid?

(a) 1only
(b) 2only
(c) Both 1 and 2
(d) Neither 1 nor 2

Ans : (d) The passage clearly says that historical injustice spans across many categories like economic deprivation, social discrimination and lack of recognition. So, assumption (1) is not necessarily right. Assumption (2) is not explicitly stated anywhere here, both are invalid.

Passage- 2

Education plays a great transformatory role in life, particularly so in this rapidly changing and globalizing world. Universities are the custodians of the intellectual capital and promoters of culture and specialized knowledge. Culture is an activity of thought, and receptiveness to beauty and human feelings. A merely well informed man is only a bore on God's earth. What we should aim at is producing men who possess both culture and expert knowledge, Their expert knowledge will give them a firm ground to start from and their culture will lead them as deep as philosophy and as high as art. Together it will impart meaning to human existence.

3. On the basis of the above passage, the following assumptions have been made :

1. A society without well educated people cannot be transformed into a modern society
2. Without acquiring culture, a person's education is not complete.

Which of the above assumptions is/are valid?

(a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

Ans : (b) According to above passage, the assumption (1) is not valid, because it is not mentioned in the passage. Assumption (2) is certainly valid, as it, is explicitly mentioned in the passage. Hence, option (b) is valid.
