The many-headed Hydra

In Greek mythology, there was a terrible, dragonlike monster that haunted the marshes of Lerna, near Argos. This creature, known as the "Hydra," had nine heads and poisonous blood. Each time one of its heads was cut off in battle, a new one would grow in its place. The Hydra was eventually defeated by the warrior Hercules.

Komodo dragons can grow to nearly 10 ft (3 m) in length.

The lizard king

Komodo dragons are the largest of all living lizards. They can catch and kill goats and pigs, but often feed on the leftovers of dead animals.
