been highlighted by the Census. Without overall development in the living standards of the population, checking population will not be possible. This is why since the launching of the NPP–2000, the governments are trying to ***tag-in*** all the programmes focused at poverty alleviation, employment generation, healthcare, etc to realise the single goal—***let peoples' living standard improve***. The changed policy stance seems having an impact on the population growth rate—the country going for decreased rate of population growth rate in the decade gone by.

DIAGRAMMATIC HIGHLIGHTS OF THE CENSUS

INDIA in the WORLD: India's population (1210.2 million) is almost equal to the combined population of USA, Indonesia, Brazil, Pakistan, Bangladesh and Japan (totalling 1214.3 million)! The absolute increase in India's population (181 million) during 2001–2011, is slightly lower than the population of Brazil, the fifth most populous country in the world!

Population of Selected Countries in 2010
