INDIAN INDUSTRY & INFRASTRUCTURE

*In China I was greatly attracted to the Industrial Co-operatives – the Indusco movement – and it seems to me that some such movement is peculiarly suited to India. It would fit in with the Indian background, give a democratic basis to small industry, and develop the co-operative habit. It could be made to complement big industry. It must be remembered that, however rapid might be the development of heavy industry in India, a vast field will remain open to small and cottage industries. Even in Soviet Russia owner-producer co-operatives have played an important part in industrial growth.**
