It has a 50 share index and a 500 share index known as S&P CNX-50 (Nifty Fifty) and S&P CNX-500, respectively.

OTCEI

Though the Over the Counter Exchange of India Ltd (OTCEI) was set up in 1989, it could commence trading only in 1992. India's first fully computerised stock exchange was promoted by the UTI, ICICI, SBI Cap among others, in order to overcome problems such as lack of transparency and delays in settlements prevalent in the older stock exchanges. Another important goal of the exchange was to allow stock market exposure to comparatively smaller companies (companies with paid-up capital from Rs. 30 lakh to Rs. 25 crore are enlisted here). Trading in this exchange takes place via market-makers and commission is fixed.

ISE

The Interconnected Stock Exchange of India (ISE) is basically a single floor of India's 15 regional stock exchanges (RSEs), set up in 1998. The RSEs were provided increased reach through this. It is a web-based exchange.

BSE

The Bombay Stock Exchange Ltd. (BSE), earlier a regional stock exchange, converted into a national one in 2002. The *biggest* in India, it accounts for almost 75 per cent of total stocks traded in India and is the *fifth* largest in the world (on the basis of market capitalisation).

There are at present four Indices connected with the BSE:

(i) *Sensex:* The sensitive index (i.e. Sensex) is a 30 stocks index of the BSE which was enlarged to include 50 stocks in 2000 but soon was cut down to the original level. This index represents the Indian stock market.

(ii) *BSE-200:* This is a 200 stock share index of the BSE (including the 30 stocks of the Sensex) which has its Dollar version too—*the Dollex*.
