i. Follow up and action on the Rio + 20 outcome document, and the four processes/mechanisms that were as part of it, especially on developing SDGs and the processes on the financing strategy and technology transfer.

ii. Taking forward the climate change discussions at Doha, the key question to be addressed is to articulate equality in the evolving arrangements that will be applicable to all in the post 2020 period. We have to ensure that domestic goals continue to be nationally determined even as we contribute to the global efforts according to the principle of CBDR and respective capabilities.

iii. Taking concrete decisions on the sectoral framework for such actions closing the possibility of both unilateral measures and actions being initiated in sectors by the respective international organisations like ICAO or IMO on their own.

iv. Equity, fair burden sharing, and equitable access to global atmospheric resources have to be protected and addressed more adequately under the DP, India will have to fight for its fair share of carbon and development space.

The sources and channels of providing long-term finance by developed countries have not yet been clearly identified. With no certainty on funding in the coming years, it is absolutely necessary to expeditiously mobilise finance and provide initial capital to the GCF for its operations.

Based on historic emissions and responsibilities, developed countries should take the lead. However, according to a June 2011 Study[7] , developing countries are pledging greater cuts in their GHG emissions than developed countries.

India is also proactive in this regard with its intentions and ambition firmly in place in its policies and programmes. One may rightly argue that with the Twelfth Plan's focus on 'environmental sustainability', India is on the right track with the right enabling environment and has a number of achievements to its credit. However, the challenge while India is growing is to identify the key drivers and enablers of growth be it –
