16. Presented by the ***Economic Survey 2012-13,*** MoF, GoI, p. 41 with inputs coming from Amitabh Kant, CEO & MD and Abhishek Chaudhary, Vice-President, DMIC Development Corporation Limited.

17. Various issues of the ***Economic Survey;*** Employment and Unemployment Situation in India (various years), NSSO, Ministry of Statistics and Programme Implementation (MOSPI); ***Census of India***, as has been presented by the ***Economic Survey 2012-13,*** MoF, GoI, p. 42. *Notes* : Industry includes manufacturing, construction, mining, and utilities. Organized-sector employment is obtained from the ***Economic Survey***. The organized sector consists of non-agricultural establishments in the private sector that have 10 workers or more, and all establishments irrespective of size in the public sector. For the other subsectors within industry, the organized sector essentially refers to all companies and government administrations. Unorganized-sector employment is estimated by deducting estimates of organized employment from total employed workforce. Total employment is generated by multiplying the worker population ratio (from the NSSO Employment-Unemployment Surveys) by the estimated population of India as per ***Census*** sources.
