Janani Shishu Suraksha Karyakram (JSSK)

The JSSK is a new initiative launched on 1 June 2011 to give free entitlements to pregnant women and sick new borns for cashless delivery, C-Section, drugs and consumables, diagnostics, diet during stay in the health institutions, provision of blood, exemption from user charges, transport from home to health institutions, transport between facilities in case of referral, and drop back from Institutions to home. In order to reach out to difficult, inaccessible, backward and under-served areas with poor health indicators, 264 high focus districts in 21 states have been identified based on concentration of SC/ST population and presence of left wing extremism for focused attention. A Mother and Child Tracking System has been introduced, which provides complete data of the mothers with their addresses, telephone numbers, etc. for effective monitoring of ante-natal and post-natal check-up of mothers and immunisation services.

National Vector Borne Disease Control Programme

This Programme is being implemented for prevention and control of vector-borne diseases such as malaria, filariasis, kala-azar, Japanese encephalitis, dengue, and chikungunya.

Revised National Tuberculosis Control programme (RNTCP)

The RNTCP, a centrally sponsored ongoing scheme, is an application in India of the WHO-recommended directly observed treatment short course popularly known as DOTS. Under the programme, quality diagnosis and treatment facilities including a supply of anti-TB drugs are provided free of cost to all TB patients. More than 13,000 microscopy centres have been established in the country. During 2010-11, the programme has achieved new sputem positive case detection rate of 71 per cent and treatment success rate of 87 per cent which is in line with global argets for TB control.

National Leprosy Eradication Programme (NLEP)

The NLEP was started in 1983 with the objective of eradication of the disease. In 2005, the dreaded disease after 22 years recorded a case load less than 1 per 10,000 population at national level. The recorded prevalence further came down to 0.65 per 10,000 in March 2012.

National Programme for Control of Blindness (NPCB)
