question. Questions are generally asked in parts i.e. only the 'Budgetary measures', Monetary measures, Administrative measures, etc.

2. 'Long-term investors' include SEBI-registered 'sovereign wealth funds' (SWFs), multilateral agencies, endowment funds, insurance funds, pension funds and foreign central banks.
3. Dharma Kumar (ed.), Cambridge Economic History of India, vol 4, Cambridge, CUP, 1983.
4. ***Some extra information on the topic:*** In the **UK**, the Financial Services Authority has launched a big campaign to improve the financial skills of the population and enable a better appreciation of risks and rewards inherent in financial instruments and transactions. The **US Treasury**, which established its Office of Financial Education in 2002, is working to promote access to the financial education tools. The Financial Literacy and Education Commission, established by Congress in 2003 was created to improve financial literacy and education. In Australia, the Government established a National Consumer and Financial Literacy Taskforce in 2002. In **Malaysia**, the Financial Sector Master Plan, launched in 2001, includes a 10-year consumer education programme. The Monetary Authority of **Singapore** has launched a national financial education programme (Money SENSE). A nationwide, coordinated effort was also required in **India** and the Financial Stability and Development Council (FSDC) is a step forward in this direction. It is expected that this new initiative will help adequately address the challenge of financial inclusion and literacy. Idioms and metaphors of development economics keep on changing from time to time. Today, new financial sector initiatives in a country like ours – be it in the form of prompt and innovative policy responses from the Government, central bank, other authorities or be it in the form of implementation efficiency and inventiveness from the varied players – need to explicitly prioritise both financial inclusion and financial education and literacy.
5. Basel III norms prescribe a minimum regulatory capital of 10.5 per cent for banks by January 1, 2019. This includes a minimum of 6 per cent Tier I capital, plus a minimum of 2 per cent Tier II capital, and a 2.5 per cent capital conservation buffer. For this buffer, banks are expected to set aside profits made during good times so that it can be drawn upon during periods of stress.
6. The write-up is based on – *the RBI's Credit & Monetary Policy, 2011-12* (in which the Scheme was introduced); and the *European Central Bank*, Frankfurt, Germany and *Federal Reserve System* (also known as the Federal Reserve, and informally as the *Fed*) Washington, DC, USA.
