By late May, more substantive aid was finally starting to arrive. The entry visa process became more streamlined as bureaucratic efficiency increased. Ban Ki-moon met with Than Shwe, helping to lessen the tension between the junta and international authorities. However, the claims of too little too late would continue to echo in any critique of the disaster relief.

In addition, the regime stifled any sort of collective remembrance or memorialization. The regime's gag orders on all public forums left the citizens only a private avenue to mourn and remember the catastrophe. One of the great tragedies in the modern history of Myanmar is that recent historical events are not allowed to be remembered or acknowledged in any significant way.
