‘Harari is able to be as refreshingly clear in his discussions of biology, of evolutionary anthropology and of economics as he is of historical trends … Stick with him and you learn a lot’
Daily Telegraph

‘Jaw-dropping from the first word to the last … It may be the best book I’ve ever read’
Chris Evans

‘[*Homo Deus*] Show us where mankind is headed in an absolutely clear-sighted and accessible manner’
Jarvis Cocker

‘Yuval Noah Harari is the most entertaining and thought-provoking writer of non-fiction at the moment. As with *Sapiens*, you finish the book feeling much wiser’
Matt Haig

‘What elevates Harari above many chroniclers of our age is his exceptional clarity and focus’
Sunday Times

‘Challenging, readable and thought-provoking … He has provided a smart look at what may be ahead for humanity’
Time

‘An exhilarating book that takes the reader deep into questions of identity, consciousness and intelligence … Harari is a naturally gifted explainer, invariably ready with a telling anecdote or memorable analogy. As a result, it’s tempting to see him less as historian than as some kind of all-purpose sage’
Observer

‘Modern life can seem overwhelming … *21 Lessons for the 21st Century* is on hand to guide us through it. Poolside reading with a purpose’
