Praise for *Sapiens*

New York Times Readers' Pick: Top 100 Books of the 21st Century • A _Booklist_ Best Book of the Year • One of _The Atlantic_'s "Best Books We Read" • A Mark Zuckerberg Facebook Book Club Pick • One of Bill Gates' 10 Favorite Books

"Interesting and provocative. . . . It gives you a sense of how briefly we've been on this Earth."
—Barack Obama

"I would recommend *Sapiens* to anyone who's interested in the history and future of our species."
—Bill Gates

"*Sapiens* is learned, thought-provoking, and crisply written. . . . Fascinating."
—*Wall Street Journal*

"One of my favorite writers and thinkers. . . . He will blow your mind with how he tells our human history and looks into our future."
—Natalie Portman

"Yuval Noah Harari's celebrated *Sapiens* does for human evolution what Stephen Hawking's *A Brief History of Time* did for physics. . . . He does a superb job of outlining our slow emergence and eventual domination, of the planet."
—*Forbes*

"It is one of the best accounts by a *Homo sapiens* of the unlikely story of our violent, accomplished species. . . . It is one hell of a story. And it has seldom been told better. . . . Compulsively readable and impossibly learned."
—*Washington Post*

"This was the most surprising and thought-provoking book I read this year."
—*The Atlantic*

"It altered how I view our species and our world."
—*The Guardian* (London)

"An absorbing, provocative history of civilization . . . packed with heretical thinking and surprising facts. This riveting, myth-busting book cannot be summarized . . . you will simply have to read it."
—*Financial Times* (London)

"[S]urprisingly impactful on understanding day-to-day life."
—*Politico*

"A must-read for any human—or aspiring bot."
—*Wired*
