1. Choose Instances from the subnavigation options of the EC2 service, in case you are not looking at the list of EC2 instances already, as shown in figure 3.14.

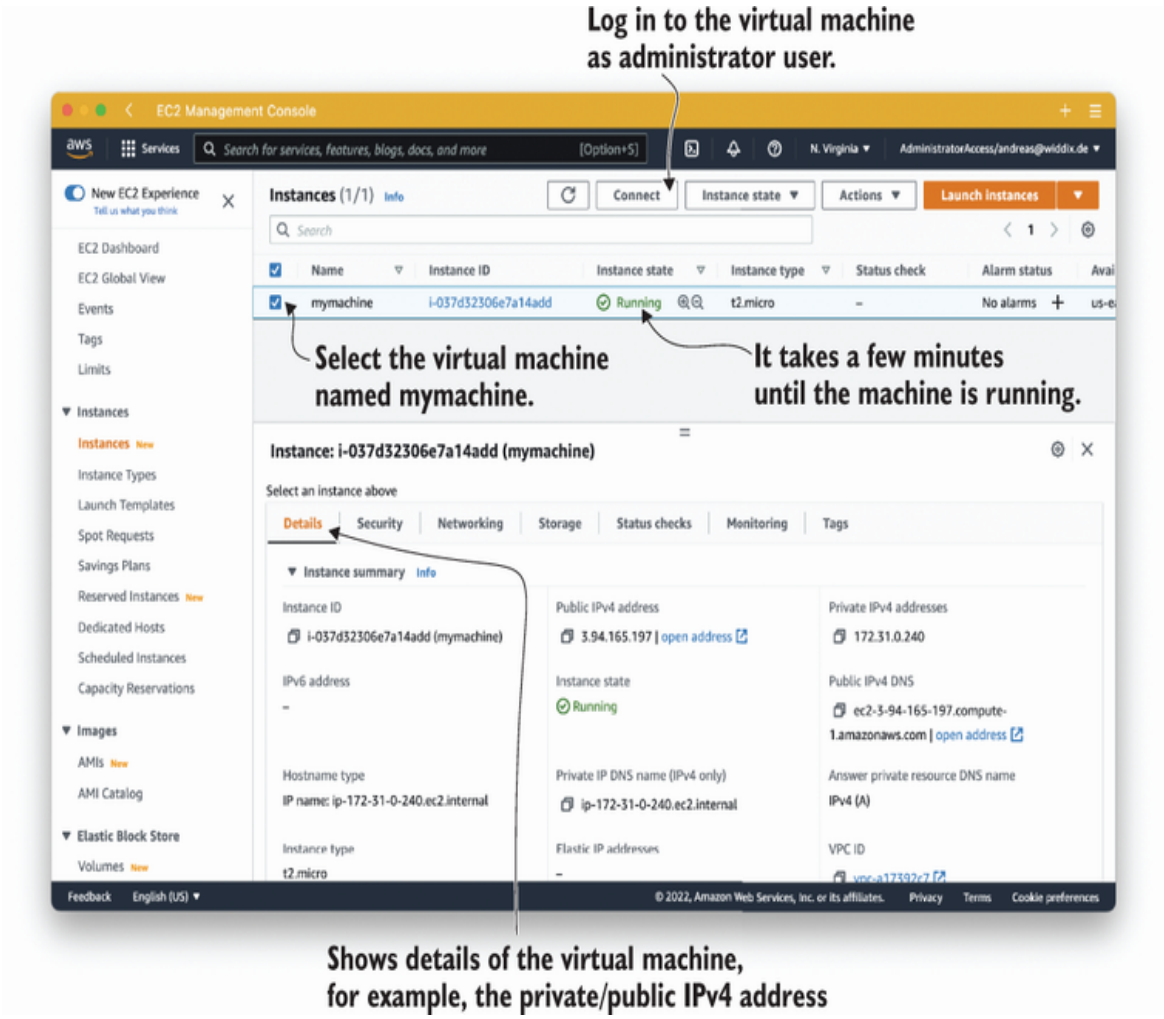

Figure 3.14 Listing all EC2 instances running in the region N. Virginia

2. Select the instance named `mymachine`.
3. Wait until the instance reaches the status `Running`.
4. Click the Connect button.
5. Select the Session Manager tab.
