five minutes. Otherwise, the alarm state will be OK.

The next step, illustrated in figure 6.15, configures the alarm actions so you will be notified via e-mail:

1. Select In Alarm as the state trigger.
2. Create a new SNS topic by choosing Create New Topic.
3. Type in website-health-check as the name for the SNS topic.
4. Enter your email address.
5. Click the Next button to proceed.
