- Small relational database with 20 GB of storage, including backup.
- 25 GB of data stored on NoSQL database.

If you exceed the limits of the Free Tier, you start paying for the resources you consume without further notice. You'll receive a bill at the end of the month. We'll show you how to monitor your costs before you begin using AWS.

After your one-year trial period ends, you pay for all resources you use. But some resources are free forever. For example, the first 25 GB of the NoSQL database are free forever.

You get additional benefits, as detailed at http://aws.amazon.com/free. This book will use the Free Tier as much as possible and will clearly state when additional resources are required that aren't covered by the Free Tier.

## *1.4.2 Billing example*

As mentioned earlier, you can be billed in the following ways:

- *Based on time of use*—A virtual machine is billed per second. A load balancer is billed per hour.
- *Based on traffic*—Traffic is measured in gigabytes or in number of requests, for example.
- *Based on storage usage*—Usage can be measured by capacity (e.g., 50 GB volume no matter how much you use) or real usage (such as 2.3 GB used).
