you: you were able to increase the number of visitors to your web shop fivefold in February. As you already know, you have to pay for AWS based on usage. Table 1.1 shows your bill for February. The number of visitors increased from 100,000 to 500,000, and your monthly bill increased from $112 to $473, which is a 4.2-fold increase. Because your web shop had to handle more traffic, you had to pay more for services, such as the CDN, the web servers, and the database. Other services, like the amount of storage needed for static files, didn't change, so the price stayed the same.

Table 1.1 How an AWS bill changes if the number of web shop visitors increases

Service	January usage	February usage	February charge	Increase
Visits to website	100,000	500,000		
CDN	25 M requests + 25 GB traffic	125 M requests + 125 GB traffic	$115.00	$100.00
Static files	50 GB used storage	50 GB used storage	$1.15	$0.00
Load balancer	748 hours + 50 GB traffic	748 hours + 250 GB traffic	$19.07	$1.83
Web servers	1 virtual machine = 748 hours	4 virtual machines = 2,992 hours	$200.46	$150.35
Database (748 hours)	Small virtual machine + 20 GB storage	Large virtual machine + 20 GB storage	$133.20	$105.47
DNS	2 M requests	10 M requests	$4.00	$3.20
Total cost			***$472.88***	***$360.85***
