Feeding time

What do animals feed on and how do they eat? Let's take a look.

omnivore
(plant and meat eater)

bears

carnivore
(meat eater)

herbivore
(plant eater)

predator

cheetah

vulture

antelope

graze

grass

prey

scavenger
(eater of leftovers)

Food chain

flow of nutrients

All about eating

mouth

bite and chew

Beavers eat leaves, twigs, and bark. They cut wood to make dams.

gnaw

proboscis (straw-like mouthpart)

nectar

suck

lap

Trap-jaw ants eat other insects.

mandibles (mouthparts)

ready to snap
