# electroons 2.0

JANARDHANA SWAMY AND NEHA J.S.

Man, the wait is over. The robots are here. Now we can feel comfortable with our hair loss!

Congratulations! Your training is now complete. You can go to any planet now!

I know you don't want to be interrupted while studying interrupts. But I'm a Non-Maskable Interrupt!

The datasheet is one page, and all the rest is errata!

It's for ultra-lazy people. It periodically moves their eyelids!

Do you have any sarees in the colour spectrum between 570 and 572 nanometres?
