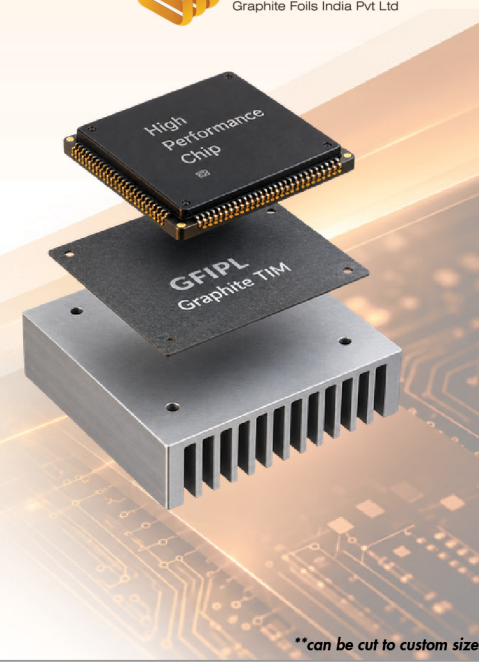

GRAPHITE THERMAL INTERFACE MATERIAL (TIM)

GFIPL
Graphite Foils India Pvt Ltd

NEXT-GEN THERMAL SOLUTION

For High Performance Electronics

Graphite Foil India's Graphite TIM is a high-performance solution that bridges the gap between chip and heatsink-efficiently replacing thermal paste and overcoming its limitations.

High Thermal Conductivity
Up to 400w/m-k (in-plane)

Reliable & Stable
Non-drying, non-curing & non-bleeding

Ultra Thin & Flexible
Better conformability & easy assembly

Electrical Insulation
Ensures safe performance in applications

Wide Operating Range
-200°C to 2200°C (in inert atmosphere)

Clean & Easy to Use
No mess like thermal paste, rework friendly

**can be cut to custom sizes

IDEAL FOR APPLICATION IN

Power Electronics | Automotive (EV/HEV) | LED Lighting
Telecom & 5G | Industrial Electronics | Consumer Electronics

GRAPHITE FOILS INDIA PRIVATE LIMITED
India's Leading Maniufacturer of Flexible Graphite Foils & Advanced Materials
Make in India. Made for the World.
