early decision. Unlike external antennas, embedded solutions such as PCB, FPC, ceramic, and internal antennae require close coordination between RF design, PCB layout, enclosure mechanics, and certification requirements. A poorly matched antenna can lead to signal loss, failed compliance testing, and costly redesign cycles.

As product sizes shrink and multi-band connectivity becomes standard (LTE, 5G, Wi-Fi, Bluetooth, GNSS, ISM, LoRa), engineering teams increasingly need partners who can support simulation, tuning, integration, and volume manufacturing—not just component supply.

This guide is organised into three tiers based on how each supplier is actually reachable from India:

1. Indian OEMs (embedded/custom capability). These companies design and manufacture in India, with custom antenna design and integration support (Table 1).

TABLE 2
GLOBAL ANTENNA OEMs WITH AN INDIA OFFICE

Company	Global HQ	India HQ	Embedded Focus	Custom Capability
Cavli Wireless	San Jose, California, USA	Kochi, Kerala	Primarily an IoT module company; antenna support comes bundled into module integration and certification programmes	Module-level
CoreIoT Technologies	Tampere, Finland	Ongole, Andhra Pradesh	Cellular, GNSS, UWB, RFID	Integration-focused—good for RF integration engineering
Harman	USA	Pune and other India operations	Automotive telematics, integrated smart/conformal antennas, 4G/5G, GNSS, Wi-Fi/Bluetooth, and connected vehicle systems	High—automotive OEM integration
Quectel Wireless Solutions	Shanghai, China	Gurugram, Haryana	PCB, FPC, ceramic antennas for 5G, GNSS, LTE	Yes—strong for module +antenna co-design

TABLE 3
GLOBAL ANTENNA BRANDS AVAILABLE VIA INDIAN DISTRIBUTORS

Company	Global HQ	Description/Embedded focus	Indian distributor/Sourcing channel
Airgain	USA	High-performance antennas for connected devices, IoT, 5G, enterprise connectivity	Mouser for Asia, but is also available on DigiKey.in
Amphenol Antenna Solutions	USA	Embedded and rugged antennas for cellular, GNSS, ISM bands	DigiKey India, Element14 India, Mouser India, Amar Radio Corporation
Antenova	UK	Tier-1 supplier and specialist in embedded PCB/FPC antennas for cellular (LTE, 5G), GNSS, Bluetooth, and ISM bands; includes FPC, rigid PCB, ceramic and SMD solutions for 5G, cellular, GNSS, Wi-Fi, Bluetooth, UWB, ISM, and LoRa/LPWA applications	Vira Technologies Ltd, AddCom Solution Pte Ltd, element14, Mouser, DigiKey
Laird Connectivity	USA	Embedded and external antennas—automotive, industrial IoT, Wi-Fi	Millennium Semiconductors India Pvt Ltd, Supreme Components, Mouser, DigiKey, Element14
LPRS (Low Power Radio Solutions)	UK	Embedded ceramic chip and surface-mount antennas for internally mounted RF designs, covering ISM bands including 433MHz, 868MHz, 915MHz, and 2.4GHz	Element14, Mouser, RS Components, and Omniscient Electronics Pvt Ltd
Maxtena	USA	Premium embedded antennas—GNSS, IoT, automotive	Richardson RFPD and Element14
Molex	USA	Board-level antenna solutions plus RF connectors	VSInterconnect India Pvt Ltd, Arrow India, Avnet, Element 14, DigiKey, Mouser
PCTEL	USA	High-performance embedded antennas and RF measurement for industrial/telecom applications; dedicated embedded antenna portfolio featuring compact, low-profile Wi-Fi antennas, embedded GNSS/GPS solutions, and custom embedded antenna design for portable, network, and Industrial IoT devices	DigiKey, Element14, Richardson RFPD, Mouser
Pulse Electronics	USA	Embedded and internal antennas including PCB, FPC, ceramic, chip, and compact antenna solutions for Wi-Fi, Bluetooth, GNSS, ZigBee, cellular, and 5G applications	Avnet, DigiKey, Mouser, Arrow, Element 14, Future Electronics
Taoglas	Ireland	Strong portfolio of embedded antennas including ceramic, chip, flexible PCB, and PCB antennas for ISM/LoRa, cellular, GNSS, Wi-Fi/Bluetooth, NFC, and IoT applications	DigiKey, Mouser, Arrow, Element 14, Future Electronics
TE Connectivity	Switzerland/ USA	Broad RF component portfolio and high-reliability embedded antennas; strong portfolio of embedded and internal antennas, including chip and FPC solutions for ISM, LPWAN, LoRaWAN, Zigbee, Wi-Fi, and IoT applications	Elektronika Sales Pvt Ltd, Heilind, Millennium Semiconductor, DigiKey, Mouser, Arrow, Element 14, Future Electronics, Ramakrishna Electro Components Pvt Ltd, Rabyte, Richardson RFPD
u-blox	Switzerland	Antenna tuning, embedded RF modules, partner antenna ecosystem	Arrow India, WT Microelectronics, DigiKey, Mouser, Toyota Tsusho Nexty Electronics India Pvt Ltd, Omniscient Elec Pvt Ltd
