2. Global antenna OEMs with an India office. These companies have a registered India HQ/sales-and-support office in addition to their global headquarters (Table 2).

3. Global antenna brands available via Indian distributors. These are internationally recognised embedded/RF antenna brands with no corporate or manufacturing office in India, but which are sourced in India through authorised distributors and resellers. Because distributor relationships change over time, treat the 'Indian Distributor' column as a starting point to confirm directly with the manufacturer or an authorised reseller before publishing or specifying in a design (Table 3).

How to pick the right antenna partner

The right antenna OEM or RF partner can dramatically reduce wireless design risk. Whether you are building an IoT device, EV system, or industrial platform, choosing the right partner early can save months of redesign and certification effort.

Step 1: Define your product type

- Small IoT/wearable/tracker→Antennova, CoreIoT, Quectel
- Industrial/defence/RF infrastructure→Antenna experts, Jagat RF
- Automotive/5G/mmWave→LYNwave
- Ultra-compact embedded designs→Antennova

Step 2: Decide what you actually need

- Full antenna design + manufacturing→Antenna Experts
- Module + antenna combo→Quectel, Cavli Wireless
- Design and tuning only→CoreIoT
- Quick sourcing/prototyping→DigiKey, Raamtel

Step 3: Consider scale and geography

- Global certification and volume production→ Quectel
- Low MOQ and fast customisation in India→ Antenna Experts, Vinsurwaves
- Advanced R&D and mmWave→LYNwave

Step 4: Don't ignore integration. Good antenna partners will ask for enclosure, PCB, and ground-plane details, and support tuning after mechanical changes. They should also provide test reports and documentation—if they don't, expect RF problems later.

The antenna should not be treated as a last-minute component choice. Bringing the right RF partner into the design early can prevent costly tuning, certification, and redesign problems while helping the final product perform reliably in real-world conditions. EFY

Love Electronics? Show It Off!

GET A FREE PREMIUM ROUND-NECK T-SHIRT WITH YOUR EFY SUBSCRIPTION!

Limited time offer.
Be an EFY fan—inside and out!

Subscribe to **Electronics For You (EFY)** and get a cool **"I Love Electronics" T-shirt** worth **₹599 FREE!**

YOU GET....
- 12 Issues of EFY worth ₹1200
- Delivery by Courier (EFY) worth ₹600
- Premium Round-Neck T-Shirt worth ₹599
- Delivery by Courier (T-shirt) worth ₹100

Choose T-shirt size at checkout.

YOU PAY
~~₹2499~~
₹1279
SAVE ₹1220!
