This combination of South Indian and South East Asian flavors is a marvelous match for any firm-fleshed fish or seafood. Shrimp is a good alternative to cod.

pineapple broth with cod

SERVES 4 **PREP** 30 MINS **COOK** 40 MINS **FREEZE** UP TO 2 MONTHS

1 onion, diced
1¾oz (50g) raw peanuts, skinned
2 tbsp shredded coconut
1¼in (3cm) piece of ginger, chopped
1 tsp coriander seeds
2 tsp sesame seeds
1 tsp cumin seeds
1 tsp poppy seeds
3 tbsp tamarind pulp
½ tsp turmeric
¾ tsp chili powder
salt and freshly ground black pepper
2 tbsp vegetable oil
1 tsp palm sugar
1¾ cups fish stock
1 cup pineapple juice
1¾ cups coconut milk
1 cup cod, chopped
juice of 1 lime
4½oz (125g) fresh pineapple pieces, chopped
2 tbsp mint leaves, coarsely torn
2 tbsp raw peanuts, toasted and chopped

1 Heat a cast-iron pan. Add the onion, peanuts, coconut, ginger, and all the seeds. Stir over low heat until the coconut darkens and spices turn aromatic, about 5 minutes. Transfer to a bowl to cool, then place in a food processor and process to a coarse paste. Add the tamarind pulp, turmeric, chili powder, and salt and pepper, and process to a smooth paste.

2 Heat the vegetable oil in a large saucepan and cook the paste for about 10 minutes over low heat. Stir in the sugar and continue cooking until the paste begins to stick to the bottom of the pan. Pour in the stock and pineapple juice and simmer for 20 minutes, partially covered.

3 Remove the soup from the heat and process in a blender until smooth. You might need to do this in batches. Stir in the coconut milk and return the pan to the heat. Once it begins to bubble, add the fish and simmer for 3 minutes. Add the lime juice and stir in the pineapple pieces and mint leaves. Ladle into bowls and scatter the peanuts over the top.
