92, there were only 91 daysTreasury bills. It was also called as ad-hoc Treasury bill. It was discontinued from 1997–98. To replace it, ways and means was introduced. In 1998–99, 182 days Treasury bills were introduced. But it was soon replaced by 364 days Treasury bills. Again, 182 days Treasury bills were reintroduced and later 14 days Treasury bills were introduced in 1999–2000.

R.2.1.I. A. c. Other Internal Debt

Debt raised to meet budget needs apart from the previous two methods is called other internal debt.

1. Funded Securities

Sometimes short term treasury bills are converted as market loans (long term loans) to defer the repayment. These are called as funded securities. These were made as non-marketable. Sometimes, portion of these securities was made marketable. Non-marketable means it cannot be sold to any third party.

2. Other Special Securities Issued to RBI

Bonds issued by the government, to raise funds which were outside its annual borrowing programme such as the oil bonds, fertiliser bonds were classified as special securities. If these bonds were subscribed by RBI, they are accounted in this head.

3. Cash Management Bills (CMBs)

Cash Management Bills (CMBs) are short term debt instruments issued to meet the temporary mismatches in the cash flow of the Government of India. The CMBs have the generic character of T-bills but are issued for maturities less than 91 days. Like Treasury bills these are zero coupon bonds issued at a discount. In 2010, Government of India, in consultation with RBI introduced it.
