- Measures of Inequality
- Estimation of Poverty in India
- Employment and Unemployment
- Types of Unemployment
- Related Terms

Poverty can be defined as a social phenomenon in which a section of the society is unable to fulfill its basic necessities of life. Unemployment is a situation in which individuals are ready and willing to work at the prevailing rate of wages but do not get work. In India poverty and unemployment are estimated using consumer expenditure surveys and Employment and Unemployment surveys of NSSO (now National Statistical Office - NSO) respectively.
