fresh thinking. So, quite apart from its growing prominence, the world is today required to come to terms with this changing India.

The key questions pertaining to us reflect the global rebalancing underway. Will the world continue to define India, or will India now define itself? Awadh remains the symbol of the former to this day. But if it is now to be the latter, then it means not just new equilibriums with other powers but with the world order itself. India is today on a voyage of self-discovery and the lessons of Awadh are its surest compass in that quest.
